Contents

The Firechief range of products set the standard for those who are seeking competitively priced, superior quality, UK-approved fire safety products.

Firechief's mission is to work hard every day to protect lives and property from fire by providing a range of fire safety products that can be trusted to perform when the heat is on.

That's why as a manufacturer of fire safety products, the focus is on quality, reliability and high performance.

Bearing the distinctive Firechief brand, products are UK-designed to be visibly safer and set the standard both in the UK and overseas for top quality, UK-approved fire equipment.

Firechief products carry a range of accreditations including BSI Kitemark, LPCB, MED, CE and Apragaz.

The Firechief range includes high performance fire extinguishers, fire blankets, fire equipment cabinets and stands, fire alarm equipment, fire hose and brigade equipment, fire suppression systems, fire pumps and fire safety signage.

Firechief products are suitable for use in every environment including at the office, in commercial and public buildings, on construction sites, in hotels - and in the home.

FIRE FIGHTING & SAFETY

Includes all the Fire Fighting products that you will need.

Which Fire Extinguisher?

EXTINGUISHER TYPE	CLASS A — Fires involving carbon based materials such as wood, paper or textiles	CLASS B — Fires involving flammable liquids such as petrol, diesel, oils etc	CLASS C — Fires involving gases	CLASS D METALS — Fires involving flammable metals	CLASS F — Fires involving cooking oil and fats	ELECTRICAL — Fires involving electrical equipment
WATER	✓					
WATER MIST	✓				✓	✓
FOAM	✓	✓				
FOAM MIST	✓	✓				
CO$_2$		✓				✓
POWDER	✓	✓	✓	✓ *		✓
WET CHEMICAL					✓	

Final specification of fire extinguisher types for any risk must be based on the findings of a fire risk assessment conducted by a competent person. Many applications will require more than one extinguisher type dependent on the type of risk identified. *Specialist Powder extinguishers are required for flammable metal risks

IN THIS SECTION

FIRECHIEF XTR WATER EXTINGUISHER

- Corrosion resistant finish
- Internal polyethylene lining
- Squeeze grip operation
- Approved to BSEN3
- Supplied complete with bracket
- FXW6 approved to 35kV dielectric test
- MED approved

FIRECHIEF®

FIRECHIEF MULTIMIST FIRE EXTINGUISHER

The revolutionary new MultiMist System is designed to combat Class A, B, F and electrically started fires. Here's how the system keeps your property and the environment safe: A specially designed rotor in the MultiMist System mixes water and air in a pre-set proportion to generate a fine mist of 40-60 micron molecules. These tiny droplets have a surface area coverage many times higher than water in its natural state. The principle is simple: the smaller the particles of water, the further they spread and the faster they cool. Water is propelled through a specially modified dip tube to a special nozzle to produce Watermist particles. On contact with the flames, the mist turns into steam and envelopes the fire. This blanket effect cools the blaze down and brings the oxygen supply to below combustion levels. Without oxygen or heat, the fire dies out and because this isn't water in its natural state, the dangers of electrocution and flooding are eliminated.

This powerful, reliable, efficient extinguisher can be used on most classes of fire – including flammable liquid and electrically started fires. What's more, since no synthetics or chemicals are used in the process, MultiMist causes absolutely no collateral damage. It just stops a fire dead in its tracks.

- Damage free Fire Extinguisher
- 5 Year Warranty
- High fire fighting effectiveness
- Discharge controllable
- Durable EPDM rubber hosepipe
- CE Certification, LPCB Approval

HOT WORK COMPLIANCE

FIRECHIEF SENTINEL FIRE EXTINGUISHER

The world's first fire extinguisher that's:

1. A portable fire extinguisher;
2. Takes over firefighting when the fire becomes too big to handle;
3. Turns into a suppression system when no one is around.

Powered by MAP 90 high performance powder this extinguisher takes firefighting to a new level. In the event of a large fire, it allows the firefighter to launch the fire extinguisher in the direction of the flames and move to safety, while the extinguisher automatically activates and extinguishes the flames. When no one is around to detect the fire, this one-of-a-kind extinguisher automatically activates when the temperature rises above 68°C.

- Deep Drawn Body
- Easy to use handle & lever set
- Unique Discharge Mechanism combining manual and automatic actuation
- Easy snap safety seal
- Two Heat Sensors for guaranteed performance
- Durable EPDM Rubber Hose
- Pressure Gauge for easy checking

FIRECHIEF POLISHED & STAINLESS STEEL EXTINGUISHERS

- Stored pressure extinguishers with highly polished finish for maximum impact
- Ideal for architecturally sensitive environments and design-led interiors
- Ideal for clean room applications where hygiene is paramount
- Squeeze grip operation
- Protective plastic base (except CO2s)
- Built to comply with requirements of BSEN3 excluding clause 16.1 (red coloured body)
- Supplied complete with bracket
- Supplied with frost-free horn on 2kg CO2 extinguisher

FIRECHIEF MICRO RANGE

Technology meets design in the handy Firechief Micro. Built to protect micro-environments; in a fire situation, the Firechief Micro automatically kicks into action. The rising temperature causes the pressure inside the Micro's glass bulb to increase. The very second the temperature reaches combustion levels, the bulb breaks and activates the system. Instantly, the extinguishing agent is dispersed, suppressing the fire in its early stages within the micro-environment itself, and limiting the potential damage. Backed by a 5-year warranty and with the assurance of no leakage, the environmentally friendly Firechief Micro is available in a choice of two clean agents.

- Being automatic, the Micro requires no manual action to start firefighting
- 5-year warranty and the assurance of no leakage
- Installation takes just minutes
- No power supply required: the Micro uses a mechanical release mechanism to start firefighting
- Application specific: from operating temperature to micro-environment and extinguishing agent specific, the Micro meets all requirements
- The Micro can be used in virtually any micro-environment - from electrical panels and distribution boards to washing machines and television sets
- The perfect mini suppression system for homes, offices, cars and factories

FIRECHIEF SUPERMIST

Though water is one of the most potent fire extinguishers around, large quantities are required to extinguish a fire. Harnessing water's immense cooling power and multiplying it hundreds of times over, Firechief's Watermist technology breaks water down into a fine mist of under 80 microns. This mist is then thrown at the fire with a great kinetic force, covering a large surface area. As soon as the mist comes into contact with the fire, it instantly turns into steam, enveloping the flames, cutting down the oxygen supply and reducing the temperature to below combustion levels. Powered by Watermist, the Firechief Supermist is unstoppable. Equipped with four Multi-Rotors in each container, it's fully capable of generating Watermist quickly and efficiently. This is available as pure Watermist or Foam mist for full risk coverage. Available as a standalone trolley mounted in 25L, 50L and 100L capacity, the Supermist truly is a fire engine on wheels.

FEATURES:

- Easy to use with Quick Stored Pressure Activation
- Fights Class A,B,F and Electrically started fires
- Tamper-proof Safety Seal
- Low pressure, safe technology
- Meets and conforms to international standards with EN1866 certification pending
- Controllable Discharge Mechanism with a lightweight dual-mode gun
- Long-lasting Braided Rubber Hose
- Corrosion resistant Stainless Steel Body
- Environmentally friendly using bio-degradable foam and/ or water to fight fires
- Portable, Trolley Mounted Extinguisher
- Pressure Gauge for easy checking

FIRECHIEF DYNAMIST

The Firechief Dynamist is unique, as it uses Watermist technology, causing minimal collateral damage, with maximum firefighting capacity. Fitted with two 6 litre stored pressure containers, this backpack firefighter is always ready to come to the rescue. The Dynamist does the work – dispensing Watermist, made up of microscopic droplets of water (below 80 microns), onto the fire affected area, quickly putting out the flames as well as bringing the temperature down to noncombustion levels.

FEATURES:

- Easy to use with Quick Stored Pressure Activation
- Fights Class A,B,F and Electrically started Fires
- Tamper-proof Safety Seal
- Low pressure, safe technology
- Watermist technology minimises material damage
- 1 minute of Continuous Discharge
- Durable Braided Rubber Hose Pipe
- Corrosion Resistant Stainless Steel Body
- Environmentally friendly: using bio-degradable foam and/or pure water to fight fires.
- Available in pure Watermist or in Watermist+Foam
- Spray and Jet Modes can be easily switched using lever operated nozzle
- Ideal for Rapid Reaction
- Pressure Gauge for easy checking

HAVE YOU SEEN OUR FIRECHIEF MULTIMIST EXTINGUISHERS?

FIRECHIEF RAPID ACTION SYSTEM (FRAS)

FRAS DIRECT – LOW PRESSURE

Firechief's Direct Low Pressure Rapid Action System uses either DuPont™ FE36™ or HCFC 123 as the extinguishing agent, and is ideal for situations in which fires can break out in localised areas. The most prominent feature of this system is the specially designed heat sensitive pneumatic polymer tubing. It is connected at one end to a Firechief extinguishing agent container, while the rest of it runs unobtrusively throughout the area at risk.

When the flame comes in contact with the heat-sensitive tubing or ambient temperature which is 150-180ºC, the tubing bursts open at that exact spot where heat is highest and forms a miniature nozzle. The pneumatic mechanism triggers the valve of the extinguisher and sprays the extinguishing agent out of the tube directly onto the flame, dousing the fire instantaneously. Because the extinguishing agent used is a clean agent, this system is effective to combat any kind of fire.

The revolutionary technology makes this system entirely self-activated, and requires no human intervention once it has been installed. This makes it especially beneficial for "micro-environments", or areas where the fire hazard is likely to be in an enclosed space (such as a server, electric panel etc.).

The Direct System is designed by the Firechief Design Team and installed by Firechief's expert team after an assessment of the location. The most suitable option can be installed based on the assessment and requirements of the location.

Firechief Direct Low Pressure Rapid Action System is available in 2kg, 4kg, 6kg, 9kg sizes to suit all applications

FIRECHIEF RAPID ACTION SYSTEM (FRAS)

FEATURES:

- **Direct System:** The heat–sensitive tubing also acts as an extinguishing agent delivery system. When a fire is detected, the tube bursts at that point, forms a miniature nozzle and sprays the extinguishing agent.

- **Application:** Ideal for places where fires can break out in localised areas.

- **Low Pressure:** Low pressure type for extinguishing effectiveness with minimised collateral damage.

- **International Quality:** Built to Firechief's high standards, which are in compliance with international quality standards.

- **Self-contained:** Does not require any power supply and will function normally in the event of a power outage.

- **Instant activation:** Eliminating the need for human intervention, the system is always ready to combat a fire as soon as it breaks out.

- **Flexible Application:** Uses DuPont™ FE36™, HFC227en or HCFC 123 extinguishing agent, making this system useful for a multitude of applications.

- **Extended Reach:** Flexible tubing extends protection to areas that are difficult to access and may not be able to accommodate any other means of detection.

- **Easy Installation:** Simple design, and can be installed within a few hours, which means a significant reduction in labour costs and downtime.

- **Rugged quality:** Rugged quality ensures tolerance to harsh conditions where other types of detection systems might be rendered inadequate.

- **Swift and Comprehensive:** Running intricately and unobtrusively through servers, genset and electrical mains boxes, the system can be triggered instantly and automatically. This eliminates the need for human intervention and provides a swift and comprehensive solution.

- **Mechanism and Indicator:** Used / Unused Mechanism and Used / Unused Indicator keeps track of usage and ensures there are no unpleasant surprises during an emergency.
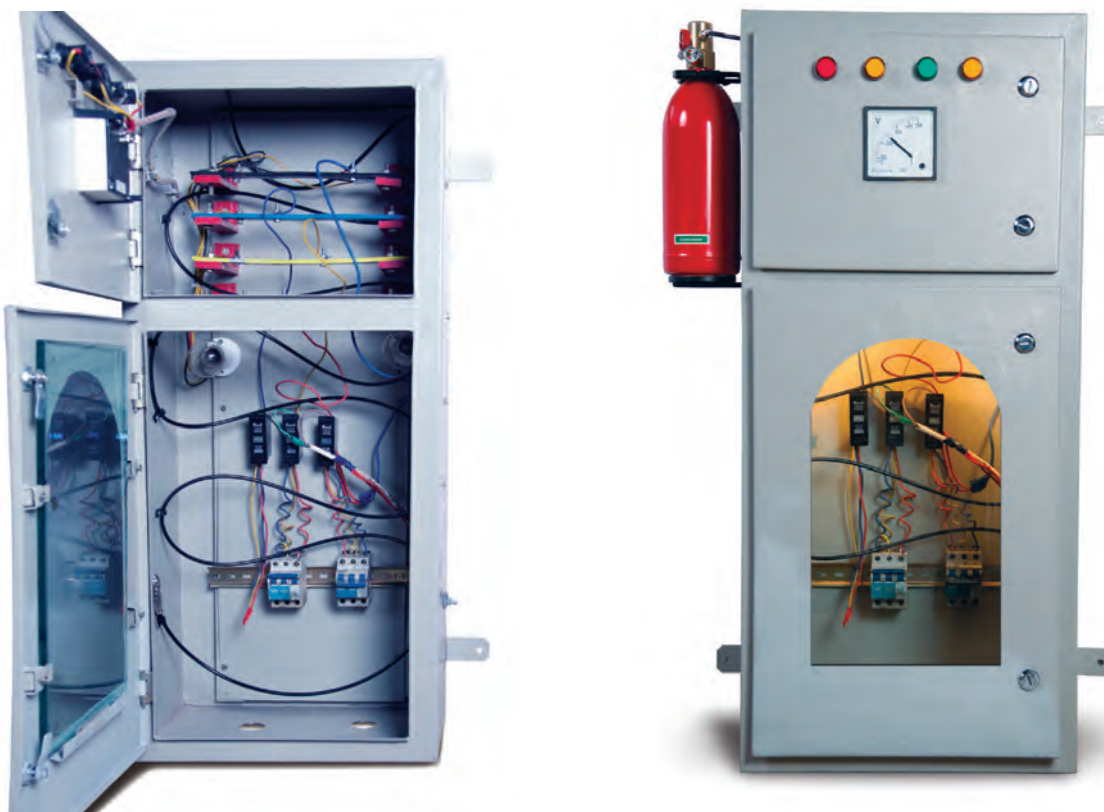

FIRECHIEF KITCHEN SUPPRESSION SYSTEM
ECO SERIES

COMPONENTS OF THE WATERMIST KITCHEN SUPPRESSION SYSTEM:

Propelled by the pressurised nitrogen in the cylinders, pure water is pushed through the specialized rotor. Here some of the propellant (nitrogen) is also released into the water pipe via the air tube to create a bubbled mixture of water and nitrogen which arrives at the nozzle.This creates a pulsed output of nitrogen and water from the nozzle to form a very fine mist of less than 54 microns.

The Watermist is discharged from strategically located nozzles, installed in the hood, plenum and in all exhaust ducts and covers all possible fire risk areas. Simultaneously, the valve connected to the gas fuel line and electrical supply line can be shut down, preventing further heating of cooking oil. With the source of energy blocked and Watermist converting to steam, heat is rapidly removed from the fire zone.

Steam forms a blanket over the cooking oil and smothers the flames and the fire is quickly brought under control. What's more, the mist's cooling effect also minimises any chances of re-ignition. The Firechief Kitchen Suppression System de-activates when the supply of gas or water is exhausted.

FEATURES:

- Automatic detection and actuation
- Can be manually actuated.
- Watermist effectively prevents re-ignition
- Use of pure water ensures the kitchen is back in servcie quickly
- Flexible piping configurations for a streamlined design and easy installation
- Available in a variety of sizes that can be customised as needed for each application.
- Fully assembled and 100% tested mechanical control head ensures reliable operation.
- Utilises Stored Pressure Technology
- LPCB certified System

Firechief Eco Series system installation diagram
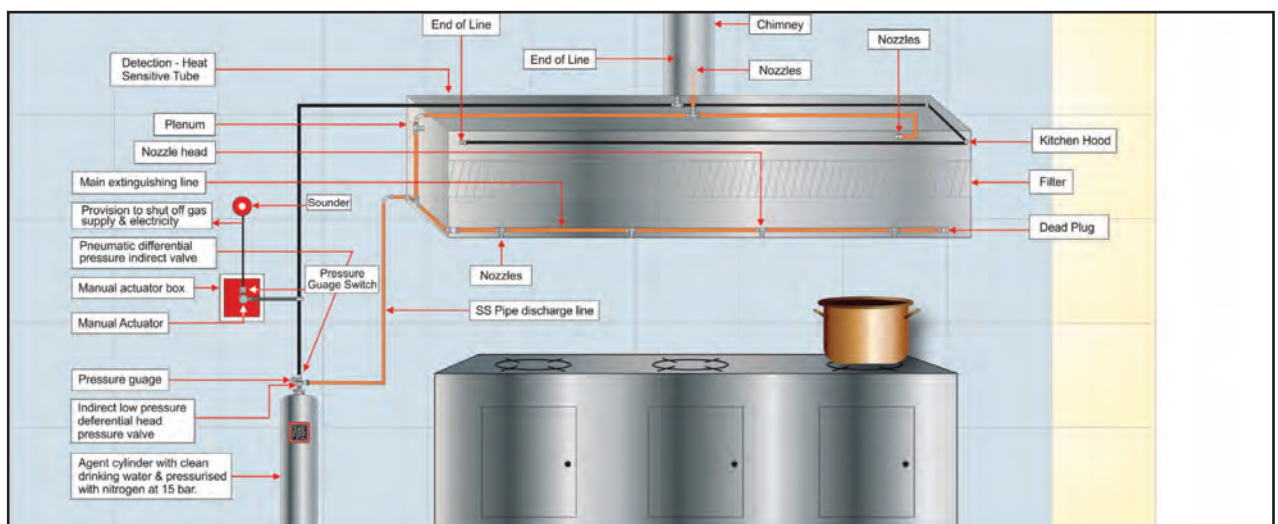

FIRECHIEF KITCHEN SUPPRESSION SYSTEM
OPTIMUM SERIES

## COMPONENTS OF THE WET CHEMICAL KITCHEN SUPPRESSION SYSTEM:

The system's most prominent feature - a specially designed heat-sensitive pneumatic polymid tube, is installed to run unobtrusively throughout the area at risk. When a fire breaks out, the heat-sensitive tube detects the rise in temperature and punctures at that point. This triggers the system which releases the Wet Chemical extinguishing agent through a separate discharge line and expels it through state-of-the-art nozzles, dousing the flames by smothering them with the spray of specialised foam and bringing down the temperature to below combustion levels.

FEATURES:

- Automatic detection and actuation
- Utilises stored pressure technology
- Can be manually actuated
- Highly effective firefighting medium prevents re-ignition by cooling the temperature of the heated oil
- Flexible piping configurations allow for a streamlined design and easy installation
- Available in a variety of sizes that can be customised as needed for each application.
- Fully assembled and 100% tested mechanical control head ensures reliable operation.
- LPCB certified System

HYDRANTS & ACCESSORIES

HYDRANT STANDPIPES

SPB1

- Standpipe in aluminium alloy with standard 2½" female British Standard Round Thread (BSRT) inlet

CODE	MODEL	DESCRIPTION
103-1056	SPB1	Single Standpipe
103-1059	SPB1/CV	Single Standpipe with check valve
103-1060	SPB2	Double Standpipe
103-1062	SPB2/CV	Double standpipe with check valve

ANTI-TAMPER LEATHER STRAPS

- For use with globe valves
- Can be fastened with 20 mm padlocks 112-1045 and 112-1046

CODE	MODEL	DESCRIPTION
103-1050	LHS1	Leather Strap-350mm x 13mm
103-1051	LHS2	Leather Strap-560mm x 13mm
134-1011	N/A	Brass Padlock 20mm Keyed Alike c/w Leather Strap LHS2
134-1012	N/A	Brass Padlock 20mm Keyed Alike c/w Leather Strap LHS1

STANDPIPE

- Single standpipe in galvanised tube with single brass bibtap, 3/4" bore with double check valve

CODE	MODEL	DESCRIPTION
103-1063	SPC1	Contractors standpipe

COUPLINGS

AAC1

ACW1

- 2½" instantaneous couplings in aluminium alloy with double-ribbed tailform, manufactured to BS336
- ACW1 replacement washer for 2½" alloy couplings

CODE	MODEL	DESCRIPTION
103-1000	AAC1	2½" Alloy Coupling
103-1006	ACW1	Coupling Washer

HYDRANT KEY & BAR

- Made from aluminium alloy HKB1or steel HKB2
- For use when turning the water supply on and off via the hydrant
- Slot for lifting drain cover on HBK1 and off via the hydrant

CODE	MODEL	DESCRIPTION
103-1030	HKB1	Aluminium Alloy Hydrant Key and Bar
103-1031	HKB2	Steel Hydrant Key and Bar

HKB1

HKB2

LAYFLAT HOSE & ACCESSORIES

LAYFLAT HOSE

LH65/23

- Constructed from close woven twill polyester filament yarns with synthetic rubber lining
- No drying – quick to stow
- Meets requirements of BS 6391:1983 Type 1 and 2
- Complete with light alloy couplings

CODE	MODEL	DIAMETER	LENGTH
103-1042	LH65/23	65mm	23m
103-1038	LH45/18	45mm	18.3m

BLANK PLUGS
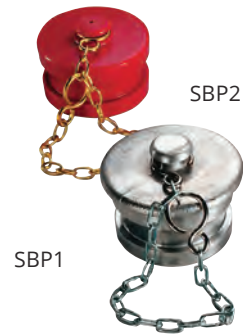

SBP2

SBP1

- Used to seal off water supplies from dirt and contamination
- SBP1 - manufactured from aluminium alloy and is pressure resistant
- SBP2 - plastic-moulded for use as dust cover only

CODE	MODEL	DESCRIPTION
103-1054	SBP1	Aluminium Alloy 2½" Blank Plugs
103-1055	SBP2	Plastic Moulded 2½" Blank Plugs

LEVER OPERATED NOZZLE

- Lever operated 2½" nozzle
- Manufactured in light alloy

CODE	MODEL	DESCRIPTION
103-1008	AWG1	Lever operated Nozzle

2½" ALLOY NOZZLE

- 2½" Cooper spray aluminium nozzle with off position, ⅝ jet and spray

CODE	MODEL	DESCRIPTION
103-1018	CSN1	Alloy Nozzle

NEOPRENE COATED WELDING DRAPE - MEDIUM DUTY

- Protects from sparks and medium splatter
- Excellent abrasion resistance and will not deteriorate as a result of oxidation, weathering or flexing
- For use in areas where oils, greases, acidic liquids and vapours are present
- Complete with brass eyelets to secure in position
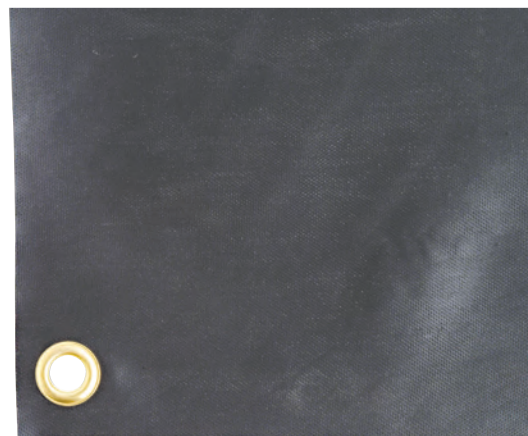

CODE	MODEL	DESCRIPTION
104-1028	HSN1-1	1m x 1.2m medium duty neoprene coated welding drape
104-1029	HSN1-2	1.2m x 1.8m medium duty neoprene coated welding drape
104-1032	HSN1-3	1.8m x 1.8m medium duty neoprene coated welding drape
104-1034	HSN1-5	1.8m x 2.4m medium duty neoprene coated welding drape

HIGH PERFORMANCE WELDING DRAPE - MEDIUM DUTY

- High performance coated glass fibre material protects from medium splatter and sparks
- Material offers very low level of gas permeability, excellent abrasion resistance and will not deteriorate as a result of oxidation, weathering or flexing
- Superior draping characteristics
- For use in areas where oils, greases, acidic liquids and vapours are present
- Complete with brass eyelets to secure in position

CODE	MODEL	DESCRIPTION
104-1019	HSC1-3	1.8m x 1.8m medium duty high performance welding drape
104-1020	HSC1-4	1.2m x 2.4m medium duty high performance welding drape
104-1021	HSC1-5	1.8m x 2.4m medium duty high performance welding drape
104-1023	HSC1-7	1.8m x 3.6m medium duty high performance welding drape

FIRE BUCKETS

- Suitable for many applications, including garage forecourt protection, clearing up spillages etc
- Choice of bucket style to meet every requirement

- 10 litre bucket capacity
- Fire bucket bracket available

PLASTIC FIRE BUCKET

CODE	MODEL	DESCRIPTION
105-1006	PFB1	Plastic bucket
105-1005	PBL1	Plastic bucket lid

Bucket lids supplied separately

METAL FIRE BUCKET

CODE	MODEL	DESCRIPTION
105-1004	MFB1	Metal Fire Bucket
105-1003	MBL1	Metal bucket lid

Bucket lids supplied separately

FLAMEZORB

- 10 Litre bag (not resealable)
- Excellent absorbent properties - far superior to sand
- Effortless clear up and disposal - unlike forecourt sand
- Manufactured to fire classification EN13501-1
- 1 bag required to fill a bucket (not included)

CODE	MODEL	DESCRIPTION
115-1003	FZB1	Flamezorb Spill Absorbent 10ltr

FIRE SAND

- Dry yellow sand for fire fighting applications
- Supplied in 12.5kg bags

CODE	MODEL	DESCRIPTION
115-1001	BFS1	Fire Sand

HOT WORK KIT

The Firechief Hot Work Kit is the first 'all in one' kit developed especially for contractors who carry out on site Hot Work - such as welding, soldering, brazing, grinding and drilling – all wrapped up in a handy portable bag.

Each kit contains everything needed to do Hot Work safely including:

- 2kg ABC Powder Fire Extinguisher (approved to EN3)
- 1.2m x 1.8m high performance Industrial Fire Blanket, tested and approved to BSEN1869:1997 Annex C Fire Performance Test
- Plastic pocket for storage of Hot Work Permit forms
- Rolls up into an easy to carry, easy to store bag ready to take onto site

CODE	MODEL	DESCRIPTION
105-1012	HWK1	Firechief Hot Work Kit

FLAME RETARDANT SPRAY

- Water-based fire proofing spray
- Will treat any water-absorbent material including natural and synthetic materials and fabrics
- Easy to apply
- Available in 750ml spray containers and 5 litre refill bottles
- 1 litre of FRS will treat 10-15m2

CODE	MODEL	DESCRIPTION
111-1030	FRS1	750ml Spray Container
111-1032	FRS2	5 Litre Refill Bottles

Uncoated fabric under fire conditions
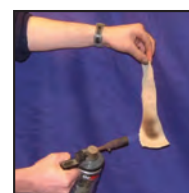

Coated fabric under fire conditions

FIRE BEATER

- Yellow fibreglass handle
- Industrial grade rubber beater
- Handle Length: 1200mm
- Beater Dimensions: 310 x 450mm

CODE	MODEL	DESCRIPTION
105-1010	FBT2	Fire Beater

FIRECHIEF

FIRECHIEF EXTINGUISHER CABINET RANGE

- Available in 4 sizes (S, M, L & Double)
- Supplied with extinguisher retaining straps
- Totally weatherproof
- Lightweight but strong
- Extremely durable - this cabinet has been designed to withstand the rigours of the most harsh environments
- Double cabinets available with alarms (Please call for details)
- 5 Year warranty

BRITISH MADE

All these rotationally moulded cabinets and stands are manufactured here in the UK to a very high standard.

ROTATIONALLY MOULDED EXTINGUISHER CABINETS

SINGLE EXTINGUISHER CABINET

- Capacity: 1 x 9kg/9l extinguisher

CODE	MODEL	INTERNAL DIMENSIONS
106-1098	HS83	H750 x W270 x D205

FIRE FIGHTING EQUIPMENT CABINET

- High performance neoprene weather seal for advanced protection
- Polycarbonate vision panels in door
- Capacity: 2 x 9kg/9l extinguishers with 1 x 2kg extinguisher
- Compatible with Mini Theft Stopper (118-1039) on page 50

CODE	MODEL	INTERNAL DIMENSIONS
106-1102	HS85	H770 x W490 x D275

HOSE REEL & EQUIPMENT CABINET

- Integral key box and locking devices as standard
- No metal parts – maintenance free design
- Neoprene weather seal
- Compatible with most swinging hose reels – 19mm and 25mm
- Polycarbonate vision panels in door
- Compatible with Mini Theft Stopper (118-1039) on page 50

CODE	MODEL	DIMENSIONS
106-1107	HS90K	H820 x W850 x D320

HOSE/DOCUMENT CABINET

- Low profile design
- Ideal for lay flat hose & accessories
- Can also be used for storing A3 fire plans
- Water resistant seal
- Incorporates equipment retaining strap

CODE	MODEL	DIMENSIONS
106-1076	HS56	H500 x W395 x D140

FIRE EQUIPMENT CHESTS

FIRE CHEST

- Advanced weather protection – neoprene seals fitted as standard
- Ideal for deck mounting
- Complete with integral key-lock mechanism

CODE	MODEL	DESCRIPTION	DIMENSIONS
106-1072	HS120	Fire Chest	H395 x W1110 x D385

HOSE REEL BOX

- Wall mounted, non-corroding PE cabinet for hose reels of various sizes
- Ideal for harsh environments, e.g. abattoirs, chemical factories, marine environment, etc
- Suitable for indoor & outdoor use
- 'L' shaped door to allow hose reel to pivot through 140°
- Plastic locks and key compartment with break-glass facility
- Right or left hinged mounting
- Robust nylon hinges
- Padlock / tamper strap facility (Padlock / strap not supplied)
- Water inlet pipe aperture cut at installation for ideal fit
- Fully recyclable, chemical resistant, UV-stabilised PE
- Lightweight - almost half the weight of steel versions - and easier to install
- Designated label area; Hose reel label supplied loose
- Black body and red door as standard
- Optional extras: Break-glass spare kit (Kit 81)

CODE	MODEL	DESCRIPTION	DIMENSIONS
106-1203	HRE100	Hose Reel Box	H1000 x W1000 x D480

WHEELED EXTINGUISHER SHELTER

- High visability location point/shelter for wheeled fire extinguishers and other utility equipment
- For indoor/outdoor storage at airports, industrial, agricultural and leisure sites
- Use the pre-drilled fixing points to secure the unit where appropriate (fixings not supplied)
- Fully re-cyclable, chemical resistant, UV stabilised PE
- Light and easy to maintain
- Designated label area, label supplied loose
- Standard colour, red

CODE	MODEL	DESCRIPTION	DIMENSIONS
109-1038	FWS146	Wheeled Extinguisher Shelter	H1460mm x W1060mm x D1595mm

EXTINGUISHER VEHICLE CONTAINERS

EXTINGUISHER VEHICLE CONTAINER

- Internal spring mechanism to hold extinguisher
- HS65 holds up to 6kg/l extinguishers
- HS75 holds 9kg/l extinguishers and most 12kg models.

CODE	MODEL	OVERALL DIMENSIONS
106-1079	HS64	Vehicle Container-1x6kg/6l
106-1080	HS65	H650 x W260 x D275
106-1097	HS75	H730 x W315 x D320

6KG EXTINGUISHER VEHICLE CONTAINER

- Internal retaining straps for extinguisher
- Holds up to 6kg/l Extinguishers

CODE	MODEL	DESCRIPTION	DIMENSIONS
106-1081	HS68	6kg Extinguisher Vehicle Container	H680 x W260 x D275

EXTINGUISHER CONTAINER 2KG POWDER

- Lift off lid design
- No corrosive parts
- Ideal for HGV cabs and other applications

FIRECHIEF ARCHITECTURAL FIRE EXTINGUISHER CABINET RANGE

Offering more than just an 'extinguisher hideaway', the Firechief architectural fire extinguisher cabinets range aids architects and designers in meeting the recommendations of legislation.

RECESSED CABINETS

The ultimately discreet option, these recessed cabinets offer many possibilities. With a choice of three trim materials, they are ideally suited to the modern interior, for specification at design stage.

SEMI-RECESSED CABINETS

These cabinets offer a neat option for the treatment of fire extinguishers where wall depth does not permit full recessing. With a maximum projection of only 136mm and requiring a cavity depth of only 90mm or 105mm, they are a consideration for retro-fit type projects.

FINISHES & SPECIALS

If our standard finishes (shown below) are too restrictive for your requirements, endless possibilities are available by special request. Solid doors (ideal for education and healthcare locations), locking catches or bespoke etched-look glazing, are just some of the options available – simply ask our sales team for more details.

108-1000	Red Firechief Storage Box/ Grit Bin
108-1049	Yellow Firechief Storage Box/ Grit Bin

FIRECHIEF SPILL TRAY WITH PLATFORM

- Made from 100% recyclable, UV resistant, non-rusting PE
- Platform with hand inserts and holes for inspection & pump insertion
- Non-slip platform surface
- Can be used with/without platform
- Stackable for easy transportation & storage
- Designed to fit on Euro pallet
- Easy to clean

CODE	MODEL	DESCRIPTION
115-1018	GSTP100	100l Spill Tray with Platform

FIRE SYSTEMS

This section of our catalogue contains our specially selected range of alarm products, accessories and tools. For ease of navigation, these have been grouped as follows:

KENTEC FIRE ALARM CONVENTIONAL CONTROL PANEL

- High specification
- Settings easily programmed
- Easily installed
- Savwire version available

CODE	PART NO	DESCRIPTION
126-1122	K11020 M2	Sigma CP Conventional 4 Wire 2 Zone Panel
126-1123	K11040 M2	Sigma CP Conventional 4 Wire 4 Zone Panel
126-1124	K11080 M2	Sigma CP Conventional 4 Wire 8 Zone Panel

C-TEC, CFP FIRE ALARM CONVENTIONAL CONTROL PANEL

- Complies fully with EN54: Parts 2 & 4
- Attractive flush or surface mountable plastic lid and enclosure
- Four conventional sounder circuits
- Class change and alert inputs
- Two on-board relays for fire and fault
- Wide range of engineering functions including zone test, non-latching zones, programmable delays and coincidence
- End of line units included, one per zone

CODE	PART NO	DESCRIPTION
126-1000	CFP702-4	CFP Fire Alarm Control Panel - 2 Zone
126-1001	CFP704-4	CFP Fire Alarm Control Panel - 4 Zone
126-1002	CFP708-4	CFP Fire Alarm Control Panel - 8 Zone
126-1003	CFP760	CFP Panel - 8 Zone Repeat
126-1027	CFP761	CFP Network Driver Card (1 required for each Repeater)
126-1005	CFP762	CFP Relay output card. Provides reset, fault, aux & remote relay outputs
126-1087	S-KEY	Spare Key for CFP Keypad

APOLLO SERIES 65 SMOKE DETECTOR

- Conventional smoke detectors housed in an attractive white polycarbonate case
- Packaging designed to act as dust cover until commissioning of system
- Externally visible LED illuminates when detector changes to alarm state
- Approved to EN54-7:2000
- 9-33v supply voltage

CODE	PART NO.	DESCRIPTION
127-1000	55000-217APO	Series 65 Ionisation Smoke Detector
127-1001	55000-317APO	Series 65 Optical Smoke Detector

APOLLO SERIES 65 HEAT DETECTOR

- Conventional smoke detectors housed in an attractive white polycarbonate case
- Packaging designed to act as dust cover until commissioning of system
- Externally visible LED illuminates when detector changes to alarm state
- Approved to EN54-5:2000
- 9-33v supply voltage

CODE	PART NO.	DESCRIPTION
127-1003	55000-122APO	Series 65 Rate of Rise Heat Detector A1R
127-1004	55000-127APO	Series 65 Rate of Rise Heat Detector Class BR 75
127-1155	55000-132APO	Series 65 Class CR Heat Detector
127-1006	55000-137APO	Series 65 Class CR Heat Detector

DETECTOR BASES

- The Series 65 diode base is designed for use with conventional systems that have manual callpoints and detector bases on the same circuit.
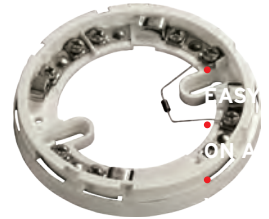

CODE	PART NO.	DESCRIPTION
127-1008	45681-201APO	Series 65 Diode Detector Base

FLAME DETECTOR

- The AFD1 UV Flame detector is designed to protect enclosed indoor areas where open flaming fires may be expected. The detector has a fast acting response to flames up to 25M away.

CODE	PART NO.	DESCRIPTION
127-1154	55000-025APO	Series 65 Class CR Heat Detector

APOLLO SERIES 65 RELAY DETECTOR BASE

Point: The Series 65 12V Relay Base is designed for use in both fire and security systems. For fire systems a jumper on the PCB is fitted to a 'latching' position. For security systems the jumper is moved to another position so that the base is 'non-latching'.

CODE	PART NO.	DESCRIPTION
127-1156	45681-508APO	Series 65 12V Relay Detector Base

HOCHIKI CONVENTIONAL PHOTOELECTRIC SMOKE DETECTOR

- Removable, high performance chamber
- Remote indicator output
- Wide voltage range 9.5v -30v
- Low profile design
- Approved by LPCB and VdS

CODE	PART NO.	DESCRIPTION
127-1077	SLR-E3N	Photoelectric Smoke Detector

CONVENTIONAL HEAT DETECTORS

- Electronic linear heat detection
- Remote Indicator Output
- Wide voltage range 9.5v – 30v
- Twin LED's for 360° viewing

CODE	PART NO.	DESCRIPTION
127-1173	DCD-AE3	Rate of Rise Detector 60ºC
127-1174	DCD-CE3	Rate of Rise Detector 90ºC
127-1175	DFJ-AE3	Fixed Temp Detector 60ºC
127-1176	DFJ-CE3	Fixed Temp Detector 90ºC

CONVENTIONAL FLAME DETECTOR

- Class 1 performance as defined in BS EN54 -10:2002
- Detection range up to 25M
- Single Infrared Technology
- Twin LED's for 360º viewing

CODE	PART NO.	DESCRIPTION
127-1172	DRD-E	Flame Detector

CONVENTIONAL SOUNDER BASE

- 32 user- selectable tones
- 3 user selectable volumes
- Max 93dB volume

CODE	PART NO.	DESCRIPTION
128-1049	CSB-E	Conventional Sounder Base

CONVENTIONAL DETECTOR BASES

- Integral remote indicator output
- Low profile design - only 8mm
- Electronics free
- Quick connection

CODE	PART NO.	DESCRIPTION
127-1163	YBN-R/6	Conventional Detector Base
127-1084	YBN-R/6SK	Conventional Detector Base c/w Diode

CONVENTIONAL SOUNDER BEACON BASE

- 32 user-selectable tones
- 3 user selectable volumes
- Max 93dB volume
- High intensity LED's to minimise current consumption

CODE	PART NO.	DESCRIPTION
128-1048	CSBB-E	Conventional Sounder Beacon Base

KAC MANUAL CALL POINT

- Modern stylish design provides increased aesthetic appeal
- Test, reset and lid release facility – in one combined tool
- Plug in terminations for faster wiring and installation
- EN54 compliant in any format
- Fully compatible with all current KAC mounting accessories

CODE	PART NO	DESCRIPTION
127-1127	M1A-R470FG-STCK-01	KAC Flush Mounted, Break Glass Call Point
127-1128	M1A-R470SG-STCK-01	KAC Surface Mounted, Break Glass Call Point
127-1129	M1A-R470FF-STCK-01	KAC Surface Mounted, Break Glass Call Point
127-1130	M1A-R470SF-STCK-01	KAC Surface Mounted, Break Glass Call Point

CXU UNIVERSAL CALL POINT

- Fully universal - standard product meets requirements of many situations
- Approved and certified to EN54-11
- Secure and convenient clip front cover
- Use of glass or resettable element without modification
- Superior LED alarm indication
- WP version available for outdoor use

CODE	PART NO	DESCRIPTION
127-1138	CXU1	Universal Callpoint
127-1139	CXU1/WP	Universal Callpoint Weatherproof IP66

CONVENTIONAL SOUNDERS

SOLISTA LX WALL

- EN 54-23 compliant – Coverage Ref W-2.4-7.5
- Designed for 2.4m mounting height max
- W LED Technology
- Red LED flash as standard. White available to order
- Flash rate switch to reduce from 1Hz to 0.5Hz to reduce power consumption.
- Coverage switch to reduce area from 7.5m to 2.5m to reduce power consumption
- Locking Base
- IP65 rated when using the deep base version.

CODE	PART NO	DESCRIPTION
128-1000	812013FULL-0114X	Solista LX Wall , Red c/w shallow base
128-1001	812005FULL-0107X	Solista LX Wall , Red c/w Deep base
128-1002	812015FULL-0116X	Solista LX Wall , White c/w shallow base
128-1003	812016FULL-0117X	Solista LX Wall , White c/w Deep base

ROLP & ROLP MAXI WALL

- EN 54-23 compliant – Coverage Ref W-2.4-7.5
- Designed for 2.4m mounting height max
- LED Technology
- Red LED flash as standard. White available to order
- Flash rate switch to reduce from 1Hz to 0.5Hz to reduce power consumption.
- Coverage switch to reduce area from 7.5m to 2.5m to reduce power consumption
- Locking Base
- IP65 Rated

CODE	PART NO	DESCRIPTION
128-1006	8500025FULL-0025X	RoLP LX Wall , Red 102dB
128-1007	8500030FULL-0030X	RoLP Maxi LX Wall , Red 106dB
128-1008	8500024FULL-0024X	RoLP LX Wall, White 102dB
128-1009	8500029FULL-0029X	RoLP MAXI LX Wall, White 106dB
128-1010	850004FULL-0040X	RoLP base c/w VAD only in Red
128-1011	**8500039FULL-0039X**	RoLP base c/w VAD only in White

SOLISTA LX CEILING

- EN 54-23 compliant – Coverage Ref C-3-7.5
- Designed for 3.0m mounting height max
- LED Technology
- Red LED flash as standard. White available to order
- Flash rate switch to reduce from 1Hz to 0.5Hz to reduce power consumption.
- Coverage switch to reduce area from 7.5m to 2.5m to reduce power consumption
- Locking Base
- IP65 rated when using the deep base version.

CODE	PART NO	DESCRIPTION
128-1004	812022FULL-0123X	Solista LX Ceiling White c/w shallow base
128-1005	812023FULL-0124X	Solista LX Ceiling White c/w deep base

SYMPHONI LX WALL

- EN 54-23 compliant – Coverage Ref W-2.4-7.5
- Designed for 2.4m mounting height max
- LED Technology
- Red LED flash as standard. White available to order
- Flash rate switch to reduce from 1Hz to 0.5Hz to reduce power consumption.
- Coverage switch to reduce area from 7.5m to 2.5m to reduce power consumption
- Locking Base

CODE	PART NO	DESCRIPTION
128-1012	8500045FULL-0045X	Symphoni LX Wall, Red 100dB
128-1013	8500050FULL-0050X	Symphoni LX Wall, Red 100dB IP66 rated
128-1014	8500044FULL-0044X	Symphoni LX Wall, White 100dB
128-1015	8500049FULL-0049X	Symphoni LX Wall, White 100dB IP66 Rated

CONVENTIONAL SOUNDERS

ELECTRONIC SOLENOID BELL

- 6" bell available in 24v dc and 220/240v ac versions
- Four-way terminal block provided for looping in and out
- Designed for single fast installation with components that easily clip together
- Base suitable for surface wiring without need for surface box or pattress

CODE	PART NO	DESCRIPTION
128-1028	EBL1	Electronic Solenoid Bell 24v Red
128-1029	EBW	Weatherproof Kit

ASKARI BED HEAD SOUNDER

- 32 signalling tones - user selectable
- Unobtrusive compact sounder for use in hotel bedrooms etc.
- Ideal for bedhead applications
- Encapsulated electronics
- Available for flush or surface fixing

CODE	PART NO	DESCRIPTION
128-1038	ASW1	Askari Sounder white
128-1047	ASR1	Askari Sounder red

ROSHNI SOUNDER - LOW PROFILE (ROLP)

- 32 signalling tones - user selectable
- High sound output (102dB) with low current consumption
- 12v dc and 24v dc operation in the same unit no adjustment required
- Automatic synchronised phased start
- Available with shallow, deep or U base

CODE	PART NO	DESCRIPTION
128-1031	RSR1/S	Roshni Sounder, Low Profile - Shallow Base
128-1032	RSR1/D	Roshni Sounder, Low Profile - Deep Base
128-1061	RSM1/S	RoLP Maxi Shallow Base
128-1060	RSM1/D	RoLP Maxi Deep Base

SQUASHNI SOUNDER BASE

- Fixing platform for detector bases and other devices
- Reduced installation costs
- Blank cover for use as stand alone sounder
- Choice of 8 different pre-set tones
- Combined sounder and beacon version available

CODE	PART NO	DESCRIPTION
128-1035	SQG3	Squashni sounder base
128-1036	SQGB3	Squashni sounder/ beacon base
128-1037	SQG3CAP	Squashni cover plate

SYMPHONI SOUNDER

- Low 5mA current consumption on standard model
- Hi output model has 32 user selectable tones
- Voice+ model can have up to 16 messages in any language, as well as 7 user selectable tones
- Weatherproof versions available

CODE	PART NO	DESCRIPTION
128-1040	**650001FULL-0003X**	Symphoni Sounder Red 100dB
128-1041	**651004FULL-0009X**	Symphoni Hi Output Sounder Red 120dB
128-1042	**680003FULL-0003X**	Symphoni Voice+ Sounder 100dB - Red
128-1043	**650002FULL-0004X**	Symphoni Sounder White 100dB
128-1044	**651003FULL-0008X**	Symphoni Hi Output Sounder White 120dB
128-1045	**680004FULL-0004X**	Symphoni Voice+ Sounder 100dB - White

MOTORISED BELL - RED 12V

- High sound output
- Low current consumption
- Simple installation
- Multi-fixing baseplate
- 24v version available

CODE	PART NO	DESCRIPTION
128-1030	MBF1	Motorised Bell, 12v - Red
128-1057	MBF2	Motorised Bell, 24v - Red

CONVENTIONAL BEACONS

SOLISTA SOUNDER/LED BEACON - LOW PROFILE (ROLP)

- Combined sounder and LED beacon
- High sound output (101dB) with low current consumption
- 12v dc and 24v dc operation in the same unit - no adjustment required
- Automatic synchronised phased start
- Available with shallow, deep or U base

CODE	PART NO	DESCRIPTION
128-1064	RSR2/SB	Solista sounder beacon c/w shallow base
128-1063	RSR2/DB	Solista sounder beacon c/w deep base

FLASHNI COMBINED SOUNDER & BEACON

- Provides audio-visual warning for noisy areas, residential homes etc.
- Weather resistant up to IP65
- High efficiency freznel lens for maximum light output
- Volume control as standard

CODE	PART NO	DESCRIPTION
128-1016	FSR1	Flashni Combined Sounder & Beacon, Red - Shallow Base
128-1053	FSR2	Flashni Combined Sounder & Beacon, Red - Deep Base

SOLISTA LED BEACON

- Ultra low current LED technology
- Long service life
- Cost effective complement to audible alarms
- Supplied with red lens as standard

CODE	PART NO	DESCRIPTION
128-1069	SRS2/SB	Solista LED Shallow Base
128-1068	SRS2/DB	Solista LED Deep Base

SOLISTA MAXI LED BEACON

- User selectable light output – 0.5/1/3cd
- User selectable flash rate – Single, Double or Continuous
- IP21C with Shallow Base or IP65 with Deep Base

CODE	PART NO	DESCRIPTION
128-1073	SRSM2/SB	Solista Maxi Beacon c/w shallow base
128-1072	SRSM2/DB	Solista Maxi Beacon c/w deep base

SOLEX XENON BEACON

- Wide operating voltage up to 60Vdc
- Suitable for outdoor use
- Cost effective complement to audible alarms
- Supplied with red lens as standard

CODE	PART NO	DESCRIPTION
128-1066	SRS1/SB	Solex Xenon Beacon, 3cd - Shallow Base
128-1019	SRS1/DB	Solex Xenon Beacon, 3cd - Deep Base
128-1071	SRSM1/SB	Solex Xenon Beacon, 10cd - Shallow Base
128-1070	SRSM1/DB	Solex Xenon Beacon, 10cd - Deep Base

Most conventional fire systems are designed to work with two pairs of wires per zone, one pair for detection devices like call points and smoke/ heat detectors; the other for alarm devices such as sounders, bells and beacons. By using different voltage bands for quiescent and alarm states, AlarmSense components can be connected to the same pair of wires. This greatly reduces labour costs and cable. Research has shown that using a two wire system can achieve a 20-25% reduction of labour costs over a conventional 4 wire system.

C-TEC TWO-WIRE ALARMSENSE ALARM PANELS

- Complies fully with EN54: parts 2 & 4
- Attractive flush or surface mountable plastic lid and enclosure
- Four conventional sounder circuits for use with conventional sounders.
- Class change and alert inputs
- Two on-board relays for fire and fault
- Wide range of engineering functions including zone test, coincidence, non-latching zones and zone delay.
- End of line units included, one per zone

CODE	PART NO	DESCRIPTION
126-1012	CFP702-2	CFP AlarmSense 2 wire Fire Alarm Panel - 2 Zone
126-1013	CFP704-2	CFP AlarmSense 2 wire Fire Alarm Panel - 4 Zone
126-1014	CFP708-2	CFP AlarmSense 2 wire Fire Alarm Panel - 8 Zone
126-1003	CFP760	CFP Panel - 8 Zone Repeat
126-1027	CFP761	CFP Network Driver Card (1 required for each Repeater)
126-1005	CFP762	CFP Relay output card. Provides reset, fault, aux & remote relay outputs
126-1087	S-KEY	Spare Key for CFP Keypad

KENTEC TWO-WIRE ALARMSENSE ALARM PANELS

- High specification
- Settings easily programmed
- Easily installed
- Uses Apollo AlarmSense and its features

CODE	PART NO	DESCRIPTION
126-1119	KA11020 M2	Sigma CP - A AlarmSense Conventional 2 Zone
126-1120	KA11040 M2	Sigma CP - A AlarmSense Conventional 4 Zone
126-1121	KA11080 M2	Sigma CP - A AlarmSense Conventional 8 Zone

APOLLO ALARMSENSE DEVICES

ALARMSENSE SMOKE DETECTORS

- Responds well to slow-burning smouldering fires.
- 2 LED's for 360º Visibility
- Reduces false alarms

CODE	PART NO	DESCRIPTION
127-1147	55000-390APO	Alarm Sense Optical Smoke Detector
127-1146	55000-392APO	Alarm Sense Optical Smoke Detector c/w Sounder Base
127-1018	55000-394APO	AlarmSense Optical Smoke Detector c/w Sounder Beacon Base

ALARMSENSE HEAT DETECTORS

- Can be used for applications where smoke detectors are unsuitable, such as dusty and smoky environments.
- CS type detectors are ideal for use in environments of rapid temperature fluctuation such as boiler rooms
- 2 LED's for 360º visibility
- Reduces false alarms

CODE	PART NO	DESCRIPTION
127-1144	55000-190APO	Alarm Sense Rate of Rise Heat Detector, Class A1R 57D
127-1021	55000-193APO	Alarm Sense Static Heat Detector Class CS 90c
127-1022	55000-196APO	Alarm Sense Rate of Rise Heat Detector Class A1R 57c c/w Sounder Base
127-1023	55000-197APO	Alarm Sense Static Heat Detector Class CS 90c c/w Sounder Base
127-1024	55000-198APO	Alarm Sense Rate of Rise Heat Detector Class A1R 57c c/w Sounder Beacon Base
127-1025	55000-199APO	Alarm Sense Static Heat Detector Class CS 90c c/w Sounder Beacon Base

ALARMSENSE DETECTOR BASES ONLY

CODE	PART NO	DESCRIPTION
127-1026	45681-244APO	AlarmSense Detector Base
127-1027	45681-510APO	AlarmSense Detector Sounder Base
127-1028	45681-509APO	AlarmSense Detector Sounder Beacon Base
127-1029	45681-295APO	Red Locking Cap
127-1030	45681-294APO	White Locking Cap
127-1073	45681-309APO	Ceiling tile mounting box for standard detectors
127-1074	45681-310APO	Ceiling tile mounting box for Sounder or Beacon Detector bases

AASB

AASSB

AAB

- Detects the removal of a detector head and reports a fault
- Red and White caps are available for the sounder and visual versions so they can be used without a detector.
- 70-87 dB range on sounder versions
- Ceiling tile mounting boxes can be used with tiles up to 25mm thick

ALARMSENSE RELAY

CODE	PART NO	DESCRIPTION
127-1033	55000-835APO	AlarmSense Alarm Relay

- AlarmSense Alarm Relay
- Enables devices such as visual indicators, pillow/bed alarms, radio vibrating and paging devices to be connected to the system.
- Ensures DDA compliance

ALARMSENSE OPEN AREA ALARM DEVICES

CODE	PART NO	DESCRIPTION
127-1034	55000 - 018APO	Alarm Sense Open Area Sounder - Red
127-1035	55000 - 017APO	AlarmSense Open Area Sounder Beacon - Red

- Polarity insensitive
- IP65 Rated

ALARMSENSE MANUAL CALL POINT

CODE	PART NO	DESCRIPTION
127-1145	55400 - 894APO	Alarm Sense Manual Call Point
127-1037	55100 - 894APO	Alarm Sense Manual Call Point

- Compliant with EN54:11 - can be detected as an operated call point rather than a detector that has changed to the alarm state.
- Red LED to signal alarm
- Resettable Element

XFP NETWORKABLE ANALOGUE ADDRESSABLE FIRE ALARM PANELS

XFP range of networkable analogue addressable fire panels offer high performance at a competitive price. Certified to the latest versions of EN54 parts 2 & 4 by the Loss Prevention Certification Board, two versions are available - a cost-effective single loop 16 zone panel in a plastic enclosure and a robust 1 or 2 loop 32 zone metal panel. Ideal for use in office blocks, shopping complexes and big industrial sites as well as smaller stand-alone applications, both versions offer an array of user and installer-friendly features including:-

- Full compatibility with Apollo's XP95/Discovery and Hochiki's ESP protocols
- The ability to interconnect up to eight XFP main panels (any variant) onto a two wire RS485 network. Alternatively, up to eight XFP repeaters can be connected to a non-networked XFP main panel

- Two independently programmable conventional sounder circuits
- Two programmable inputs
- A fault output relay and three programmable relay outputs with voltage free changeover contacts

XFP SINGLE LOOP 16 ZONE FIRE PANELS - LPCB APPROVED TO EN54-2/4

CODE	PART NO	DESCRIPTION
126-1100	XFP501E/X	XFP Networkable single loop 16 zone panel (XP95/Discovery) Keypad/keyswitch entry, plastic enclosure
126-1099	XFP501E/H	XFP Networkable single loop 16 zone panel (Hochiki ESP)Keypad/keyswitch entry, plastic enclosure

XFP 1 & 2 LOOP 32 ZONE FIRE PANELS - LPCB APPROVED TO EN54-2/4

CODE	PART NO	DESCRIPTION
126-1097	XFP501/X	XFP Networkable one loop 32 zone panel (XP95/Discovery) Keypad/keyswitch entry, c/w 3A psu, metal enclosure
126-1096	XFP501/H	XFP Networkable one loop 32 zone panel (Hochiki ESP)Keypad/keyswitch entry, c/w 3A psu, metal enclosure
126-1102	XFP502/X	XFP Networkable two loop 32 zone panel (XP95/Discovery) Keypad/keyswitch entry, c/w 3A psu, metal enclosure
126-1101	XFP502/H	XFP Networkable two loop 32 zone panel (Hochiki ESP)Keypad/keyswitch entry, c/w 3A psu, metal enclosure

XFP REPEATERS FIRE PANELS

CODE	PART NO	DESCRIPTION
126-1098	XFP510-16	XFP Networkable repeater panel, 16 zones (all protocols)Keypad/keyswitch entry, c/w psu, plastic enclosure
126-1104	XFP510-32	XFP Networkable repeater panel, 32 zones (all protocols)Keypad/keyswitch entry, c/w psu, metal enclosure

XFP NETWORK COMMUNICATION CARDS

CODE	PART NO	DESCRIPTION
126-1027	CFP761	XFP Network communication card for XFP 16 zone main panels
126-1081	AFP711	XFP Network communication card for XFP 32 zone main panels

(One network communication card is required per networked main panel. Note that repeater panels are supplied with a network communication card already fitted).

XFP PROGRAMMING SOFTWARE

CODE	PART NO	DESCRIPTION
126-1103	XFP507	XFP Upload download software kit (all protocols) Windows 98, 2000, XP includes programming lead
126-1030	SAF7070000	2m Programming lead ONLY

ZFP NETWORKABLE ANALOGUE ADDRESSABLE FIRE ALARM PANELS

- Touch Screen superior addressable fire alarm panel.
- Operates Apollo Discovery or XP95 protocol
- Fully programmable cause and effect

CODE	PART NO	DESCRIPTION
126-1113	Z023020NS/X	CTEC ZFP 2 Loop Panel with 20 Zone LED
126-1114	Z023020PS/X	CTEC ZFP 2 Loop Panel with 20 Zone LED and Printer
126-1115	Z043020NS/X	CTEC ZFP 4 Loop Panel with 20 Zone LED
126-1116	Z043020PS/X	CTEC ZFP 4 Loop Panel with 20 Zone LED and Printer
126-1117	ZHN	CTEC ZFP Hi Net FT Network Card
126-1118	ZREP1S	CTEC ZFP Surface compact controller c/w network card

C-TEC HUSH BUTTON

- Designed for use in multiple occupancy buildings where the increased fire risk and nuisance alarms can be managed by the hush button
- The hush button sits on the existing Apollo or Hochiki loop and provides a control point for each separate dwelling

CODE	PART NO	DESCRIPTION
126-1110	XFP508X	BS5839-6 Hush Button, Apollo XP95/Discovery

APOLLO XP95 DETECTOR SYSTEMS

APOLLO ANALOGUE ADDRESSABLE XP95 SMOKE DETECTORS

- Apollo Analogue Addressable XP95 Smoke Detectors
- Stainless steel wiper contacts for connection to the base.
- 17-28V dc operating voltage
- LED to show alarm status

CODE	PART NO.	DESCRIPTION
127-1038	55000-500APO	XP95 Addressable Smoke Detector – Ionisation
127-1039	55000-600APO	XP95 Addressable Optical Smoke Detector

APOLLO ANALOGUE ADDRESSABLE XP95 MULTISENSOR

- Apollo Analogue Addressable XP95 MultiSensor
- Combination of an optical smoke sensor and temperature sensor whose outputs give the final analogue value.
- Stainless steel wiper contacts for connection to the base
- 17-28V dc operating voltage
- LED to show alarm status.

CODE	PART NO.	DESCRIPTION
127-1040	55000-885APO	XP95 Addressable Multisensor Detector - Optical Smoke and 55D Heat

APOLLO ANALOGUE ADDRESSABLE HEAT DETECTORS

- Apollo Analogue Addressable XP95 Heat detectors
- Can be used for applications where smoke detectors are unsuitable, such as dusty and smoky environments
- Stainless steel wiper contacts for connection to the base
- 17-28V dc operating voltage
- LED to show alarm status

CODE	PART NO.	DESCRIPTION
127-1041	55000-400APO	XP95 Addressable Heat Detector A2S 55c
127-1042	55000-401APO	XP95 Addressable Heat Detector CS 90c

APOLLO ANALOGUE ADDRESSABLE DETECTOR BASES

XP95/DISCOVERY BASE

- The XP95 bases are zero insertion force with dual finger receptacles of stainless steel into which the detector terminals slide.
- Locking feature to prevent unauthorised removal of detector
- All styles of base come complete with the Xpert address card
- 70-87dB range on sounder versions

CODE	PART NO.	DESCRIPTION
127-1043	45681-210/UL	XP95 Addressable Detector Base c/w Xpert
127-1044	45681-284/UL	XP95 Addressable Isolating Detector Base
127-1196	45681-277/APO	XP95 Addressable Detector Sounder Base c/w Isolator
127-1046	45681-278/APO	XP95 Addressable Detector Sounder Base
127-1195	45681-330/APO	XP95 Addressable Detector Sounder Beacon Base c/w Isolator
127-1193	45681-331/APO	XP95 Addressable Detector Sounder Beacon Base
127-1188	45681-333/APO	XP95 Addressable Detector Sounder Beacon Base
127-1212	45681-276/APO	Ancillary Base Sounder
127-1192	45682-127APO	Set of Pre Addressed Xpert Cards 1-126
127-1051	38532-064	Blank XP95 Xpert address Card
127-1191	45681-295	XP95 Red Locking Cap
127-1053	45681-294	XP95 White Locking Cap

APOLLO MANUAL CALL POINTS

45681-292APO

58200-950APO

58200-950APO

58200-951/APO

- Highly visible alarm indicator which can be seen up to 10M away
- E-Z Fit connectors
- A unique, ergonomically designed key for resetting and front cover removal.
- Front facing LED

CODE	PART NO.	DESCRIPTION
127-1054	SA5900-908/APO	XP95 Addressable Manual Call Point c/w Backbox
127-1056	58200-950/APO	XP95 Addressable Waterproof Manual Call Point c/w BB
127-1057	58200-951/APO	Addressable Weatherproof Manual Call Point & Isolator
127-1214	58100-908/APO	Discovery Manual Call Point with Isolator Red Surface

APOLLO XP95 INTERFACES

127-1244
The switch monitor plus is designed to monitor the state of one or more single pole, volt-free contacts connected on a single pair of cables and to report the status to Apollo compatible analogue control equipment. It has an output for resetting a remote detector, four input states-'normal', 'fault', 'pre-alarm', and 'alarm'. It also features two visible LED's and selectable alarm delay for monitoring flow switches.

127-1245
This is a simplified version of the input/output unit without circuitry for monitoring inputs. It provides a volt-free single pole, changeover relay output. Capable of switching 30V at 1A

127-1246
The mains switching Input/Output unit provides a volt-free, single pole changeover relay output and a monitored switch input. Having three visible LED's, it is capable of switching 250V AC at up to 5A. It can supervise one or more normally-open switches connected to a single pair of cables.

CODE	PART NO.	DESCRIPTION
127-1244	SA4700-100APO	Intelligent Switch Monitor Unit
127-1245	SA4700-102APO	Intelligent Input/Output Unit
127-1246	SA4700-103APO	Intelligent Mains Switching Input/Output Unit

APOLLO ADDRESSABLE CALLPOINT

- Compatible with XP95 addressable systems
- Available in surface or flush mounted models
- When operated, call point interrupts the polling cycle for a fast response

CODE	PART NO.	DESCRIPTION
127-1134	55100-905APO	XP95 Flush/Surface Mountable, Resettable Call Point
127-1135	55100-908APO	XP95 Flush/Surface Mounted, Resettable Call Point c/w Isolator
127-1054	55200-905APO	XP95 Addressable Manual Call Point c/w Backbox

APOLLO DISCOVERY MULTI-SENSOR

- 5 Operating modes
- Automatic drift compensation
- Flashing LED mode

CODE	PART NO.	DESCRIPTION
127-1215	58000-700APO	Discovery multi-sensor

APOLLO DISCOVERY OPTICAL SMOKE DETECTOR

- 5 Operating modes
- Automatic drift compensation
- Flashing LED mode

CODE	PART NO.	DESCRIPTION
127-1216	58000-600APO	Discovery optical smoke detector

HOCHIKI ADDRESSABLE PHOTOELECTRIC SMOKE SENSOR

- Removable, high performance chamber
- Remote indicator output
- Wide voltage range 9.5v -30v
- Low profile design
- Approved by LPCB and VdS

CODE	PART NO.	DESCRIPTION
127-1087	ALN-EN	XP95 Addressable VAD Detector Sounder Base c/w Isolator

MULTI SENSOR

- Incorporates optical and heat elements
- User selectable modes
- Removable, high performance chamber
- Twin fire LEDs
- Electronically addressed
- Approved by LPCB and VdS

CODE	PART NO.	DESCRIPTION
127-1171	ACC-EN	Hochiki Addressable Multi-sensor Photoelectric Smoke & Heat Sensor

HOCHIKI ADDRESSABLE MULTI-HEAT SENSOR

- User selectable modes
- Incorporates fixed temperature and rate of rise heat elements
- Twin fire LEDs
- Electronically addressed
- LPCB approved to Classes A,B and C

CODE	PART NO.	DESCRIPTION
127-1089	ATJ-EN	Hochiki Addressable Multi-heat Sensor

ADDRESSABLE LOOP POWERED BASE SOUNDERS

- Loop powered
- Single loop address
- Fits standard or isolator base
- 51 user selectable tones
- Approved by LPCB and VdS

Beacon
- Beacon and sounder can be controlled independently

Beacon

CODE	PART NO.	DESCRIPTION
127-1090	YBO-BS	Hochiki Addressable Loop Powered Base Sounder
127-1091	YBO-BSB2RL	Hochiki Addressable Loop Powered Base Sounder

ADDRESSABLE SENSOR MOUNTING BASE

- Electronics free design
- Slim profile - only 8mm
- Rugged wiring contacts
- Facility for remote indicator
- Quick connection

CODE	PART NO.	DESCRIPTION
127-1092	YBN-R/3	Hochiki Addressable Sensor Mounting Base

ADDRESSABLE SENSOR LOOP ISOLATOR BASE
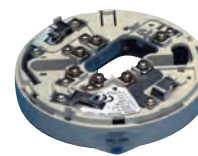

- Detects short circuits on loop
- Status LED
- Connection of up to 127 per loop
- Quick connection
- Approved by LPCB & VdS

CODE	PART NO.	DESCRIPTION
127-1093	YBO-R/SCI WHT/SNDR	Hochiki Loop Isolator Base

HOCHIKI ADDRESSABLE ACCESSORIES

HOCHIKI ESP MANUAL CALL POINTS

- LPCB approved to EN 54
- Plug-in wire terminals for easy installation
- Status LED

CODE	MODEL	DESCRIPTION
127-1095	HCP-E-SCI	Hochiki Addressable Call Point c/w Isolator - Resettable
127-1097	HCP-W-SCI	Hochiki Addressable Call Point c/w Isolator IP67 Weatherproof - Resettable

HOCHIKI LOOP POWERED WALL SOUNDER BEACON

- Variable flash frequency with certain panel manufacturers
- High intensity LED technology
- Independent control of Sounder and Beacon with certain panel manufacturers
- 8 Volume Levels
- 51 Tones
- Max output 102dB

CODE	PART NO.	DESCRIPTION
127-1098	CHQ-WSB2-RL	Addressable loop powered sounder beacon

HOCHIKI LOOP POWERED WALL SOUNDER

- 8 Volume levels
- 51 tones
- Max output 102dB
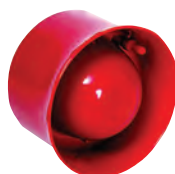

CODE	PART NO.	DESCRIPTION
127-1099	CHQ-WS2	Hochiki Addressable Loop Powered Sounder

HOCHIKI BOXED LOOP POWERED MODULES

- Two independent inputs for monitoring of volt-free contacts.
- Each input can be configured to monitor either Normally Open or Normally Closed contacts.
- Includes short-circuit isolator.

CODE	PART NO.	DESCRIPTION
127-1102	CHQ-DIM2 SCI	Hochiki Dual Input Module

- Two independently controlled changeover relays
- Relays contacts rated at 30Vdc at 1A.
- Includes short-circuit isolator.

127-1103	CHQ-DRC3 SCI	Hochiki Dual Relay Module

- Single mains rated relay.
- Relay contact rated at 250Vac at 5A (resistive) and 48Vdc at 2A (resistive).
- Includes short-circuit isolator.

127-1104	CHQ-MRC2-SCI	Hochiki Mains Relay Module

- Allows 6 conventional detectors or 1 beam detector to be interfaced to the loop.
- Remote LED output.
- Includes short-circuit isolator.

127-1105	CHQ-SZM2 SCI	Hochiki Single Zone Monitor

HOCHIKI LOOP INPUT & OUTPUT MODULES

- Small design, provides simple connectivity to ESP loop for other devices.
- Supplies a nominal 24Vdc at various current levels, 2mA to 32mA in increments of 2mA.
- Includes 2 monitored inputs.

CODE	PART NO.	DESCRIPTION
127-1106	CHQ-POM	Powered Output Module

- Small and compact design
- Provides a monitored input onto an ESP loop.

CODE	PART NO.	DESCRIPTION
127-1107	CHQ-SIM	Single Input Module
127-1142	CHQ-DIM/DIN	Dual Input Module

HOCHIKI LOOP POWERED BEACON

- High Intensity LED technology
- 1Hz flash frequency

CODE	PART NO.	DESCRIPTION
127-1101	CHQ-AB	Addressable loop powered beacon
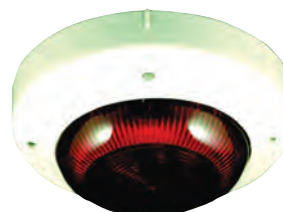

HOCHIKI WEATHERPROOF BACK BOX

- To increase IP rating from IP21 to IP65
- Easy to install

CODE	PART NO.	DESCRIPTION
127-1100	CHQ-WPK	Hochiki IP65 backbox for 127-1098 and 127-1099
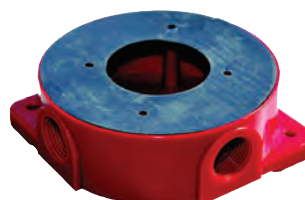

ESP PROGRAMMER

- Designed to program addresses on the ESP Devices
- Display sensor analogue values

CODE	PART NO.	DESCRIPTION
123-1003	TCH-B200	Hochiki ESP Programmer

HOCHIKI ESP ADDRESSABLE WILL NEED TO BE ADDRESSED USING THE ESP PROGRAMMER LISTED HERE

APOLLO XPANDER RANGE

Sourced from UK based world leaders in detection, we offer competitive prices with many items in stock.

WIRELESS SYSTEMS

Analogue addressable fire alarm systems have been in use for many years and have proven their worth in countless installations. Apollo Fire Detectors' wired systems comprises not only detectors and manual call points but also interfaces, sounders, beacons and special detectors such as beam and flame detectors.

Wireless systems are often installed in buildings where wiring presents a challenge, most often because the fabric of the building or its design will be negatively affected by the use of cables. It is sometimes very difficult to introduce cable runs into buildings which were not designed for the modern age. It may also be that a collection of buildings, such as an open air museum, requires fire protection but is not suitable for normal wired systems. It is for buildings of this kind that XPander has been developed. XPander is a wireless extension to a loop-wired SP95 or Discovery detection and alarm system. XPander is a system in which individual detectors, call points and alarm devices communicate with the Apollo addressable loop by radio signals. An interface is connected to the loop in the same way as any other interface, such as an Input/Output Unit. Every XPander device is assigned an address and this address is recognised by the control panel in the same way as is the address of any device connected directly to the loop wiring. It should be noted that not all installations can be extended by using XPander and it is essential that a site survey is conducted to check whether XPander can be installed or not.

CODE	PART NO.	DESCRIPTION
127-1217	XPA-CB-14016-APO	XPander combined sounder and optical detector
127-1218	XPA-CB-14020-APO	XPander Sounder Visual Indicator (Red) and Optical Smoke Detector
127-1219	XPA-CB-11170-APO	XPander A1R heat detector and mounting base
127-1220	XPA-CB-11171-APO	XPander CS heat detector and mounting base

127-1227	XPA-CB-14003-APO	XPander Sounder Visual Indicator (Red) and Optical Smoke Detector
127-1228	29600-413	Blank XPander XPERT Card (White)
127-1229	XPA-TE-14075-APO	XPander diversity 868MHz survey kit

FIREBEAM SMOKE DETECTORS

The FIREBEAM reflective optical beam smoke detector with a motorised head , can align itself when commissioning, and continually corrects itself against building movement. It can also be controlled and adjusted from ground level. The system consists of a motorised head unit, which contains an infra-red transmitter and receiver, a ground level controller and a prism reflector. The motorised head sends out the infra-red beam on to the prism reflector which returns the beam to the receiver, this analyses it for smoke contamination and registers a fire condition at a pre determined level. At ground level the controller unit is used to make operational adjustments. There are 3 kits available, 5 - 40Metre, 40-80Metre and 80-100Metre.

FIRE ALARM CABLE

NOBURN PLUS STANDARD FIRE ALARM CABLE

- Manufactured in the UK and Certified by LPCB and BASEC to fully meet the requirements of 'STANDARD' fire cables
- Superb working flexibility
- All in one – Easy to strip outer sheath
- One of the fastest cables to prepare for termination
- Supplied on a strong plastic reel
- No separate foil or additional fibre wraps

CODE	DESCRIPTION
131-1000	1.5mm 2 core standard fire alarm cable – red - 100m reel
131-1001	1.5mm 2 core standard fire alarm cable – white – 100m reel
131-1002	1.5mm 4 core standard fire alarm cable – red – 100m reel
131-1003	1.5mm 4 core standard fire alarm cable – white – 100m reel

Solid Copper Conductor Cores (4.0 Stranded)
Polyester Backed Co polymer Aluminium Foil
Aluminum Foil, bonded to the Outer Sheath
Tinned Solid Copper CPC Circuit Protection Conductor (Earth Wire) (4.0 Stranded)
Fire Resistant Low Smoke Zero Halogen Silicone Insulation
Low Smoke Zero Halogen Outer Sheath
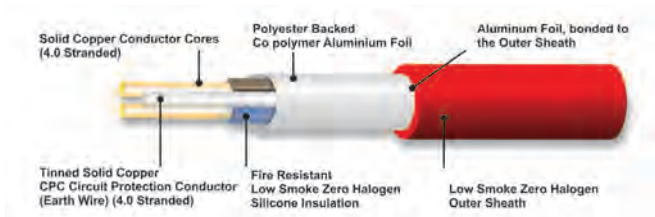

NOBURN PLUS ENHANCED FIRE ALARM CABLE

- Manufactured in the UK and certified by LPCB and BASEC to fully meet the requirements of 'ENHANCED' fire cables
- Superb working flexibility
- All in one – Easy to strip outer sheath
- One of the fastest cables to prepare for termination
- Supplied on a strong plastic reel
- No separate foil or additional fibre wraps

CODE	DESCRIPTION
131-1008	1.5mm 2 core enhanced fire alarm cable – red - 100m reel
131-1009	1.5mm 2 core enhanced fire alarm cable – white – 100m reel
131-1010	1.5mm 4 core enhanced fire alarm cable – red – 100m reel
131-1011	1.5mm 4 core enhanced fire alarm cable – white – 100m reel

Solid Copper Conductor Cores
Polyester Backed Co polymer Copper Foil
Copper Foil, bonded to the Outer Sheath
Fire Resistant Low Smoke Zero Halogen Silicon Insulation
Tinned Solid Copper CPC Circuit Protection Conductor (Earth Wire)
Low Smoke Zero Halogen Outer Sheath
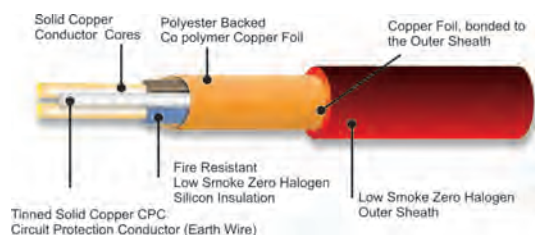

TOP TIP

Enhanced fire cables are typically used :-

- In buildings where there are no sprinklers and which involve the evacuation in four or more phases
- Where a fire in one area could affect critical signal paths associated with remote areas.

Cables should be fixed and supported in line with manufacturers requirements.

129-1004	BF362-5	C-Tec 24V 5A EN54-4 Power Supply Unit - Metal Enclosure

24V RELAY ON A PLATE

The BF376 is a general purpose, double-pole, polarised 24V 5A relay designed for use in 24V fire alarm systems. Incorporating a red LED which illuminates when the relay is active, it may be connected to a suitable control panel relay output or a standard polarised fire alarm sounder circuit to operate door retaining magnets, rollershutter doors, etc. Note, if connecting to a sounder circuit, the relay will return to its normal state when the fire condition is cleared or silenced. Always check with the approving authority that the proposed arrangement is acceptable before installation. Can be mounted on a 25mm flush or surface UK single gang back box.

CODE	PART NO	DESCRIPTION
129-1023	BF376	24v 5a Relay On a Plate

FIRE ALARM PANEL MAINS ISOLATOR

- Safety Mains Voltage Isolation (double pole)
- Neon Indicator
- Keyswitch - authorised person only
- Internal fuse - no need for extra fused spur

CODE	MODEL	DESCRIPTION
130-1028	T2-FAI	Fire Alarm Panel Mains Isolator

24V KEY SWITCH TIMER RELAY

- LED condition indicator
- Flexible triggering - switched negative trigger or two-wire only bell trigger
- Buzzer (adjustable) indicates the isolated state or timer operating
- Keyswitch to restrict isolate function & built in adjustable timer
- DIL switch selectable, pulse feature to stop system latchups

CODE	MODEL	DESCRIPTION
130-1027	T2-TR-KS	24V Key Switch Timer Relay

EQUIPMENT PROTECTIVE CAGE

- Range of heavy duty tough protective cages that prevent vandalism or accidental damage of fire alarm and other equipment
- Cages suitable for smoke detectors, bells, beacons etc
- Constructed from galvanised steel rods and plastic coated
- Designed not to interfere with operation of protected unit
- Supplied with full fixing kit

CODE	MODEL	DESCRIPTION
118-1015	STI9605	Equipment Protective Cage - 180 x 100 x 115mm
118-1017	STI9615	Equipment Protective Cage - 95mm Dia x 90mm Deep

FIRE ALARM ACCESSORIES

UNIVERSAL CALL POINT COVER

- Protective cover to help stop malicious or accidental false fire alarms
- Available for flush or surface mounted manual call points
- Constructed from tough clear polycarbonate
- Sounder versions include a piercing 120db sounder that is activated on lifting of cover

CODE	PART NO	DESCRIPTION
118-1086	STI-13010-FR	Flush Mounted Call Point Cover
118-1084	STI-13110-FR	Surface Mounted Call Point Cover
118-1087	STI-13020-FR	Flush Mounted Call Point Cover with Integral Sounder
118-1085	STI-13120-FR	Surface Mounted Call Point Cover with Integral Sounder

SURFACE MOUNTED EUROSTOPPER

- Constructed from tough clear polycarbonate
- Can be retrofitted
- Helps prevent misuse of call points

CODE	PART NO	DESCRIPTION
118-1003	STI-15C20ML	Eurostopper - Surface Mounted c/w Integral Sounder

CALL POINT STOPPER COVER

- Inexpensive cover which prevents misuse of manual call points
- Constructed from tough clear polycarbonate
- Easy to install and can retrofit over an existing call point
- Available for flush or surface mounted products
- Clear colour

CODE	PART NO	DESCRIPTION
118-1049	STI6931	Surface-mounted
118-1060	STI6930	Flush Mounted

DISABLED PERSONS TOILET ALARM KIT

- The UK's market leading disabled persons toilet alarm kit
- Includes everything required for a BS8300 and Part M clause compliant emergency assistance alarm
- Attractively designed, easy to install and simple to use

CODE	PART NO	DESCRIPTION
126-1111	NC951	Disabled persons toilet alarm kit

VIBRATING PADS

- Provides early warning of a potential fire alarm condition to the hard of hearing
- Connects to a standard 24V DC conventional fire alarm sounder circuit via a separately available Jack socket (BF364)
- Includes a 2m connection lead
- Typically used under pillows in hotel bedrooms etc

CODE	PART NO	DESCRIPTION
128-1080	BF363	24V vibrating pad c/w locking jack plug (requires 1 x BF364)
126-1112	BF364	Single gang locking jack socket for use with BF363. Can be connected to a standard 24V (max 27V) fire alarm sounder circuit

DOOR HOLDING DEVICES

DOOR HOLDING DEVICES - WIRED

- 24v DC or 230v AC Supply Voltage
- Fire Resistant ABS Casing
- 200N holding force
- Approved to EN1155 and CE Marked

CODE	DESCRIPTION
129-1006	24V DC Wired Door Holder - Doormouse
129-1007	240V Wired Door Holder - Doormouse
129-1008	24v DC Wired Door Holder - Fulleon

CONQUEST FIRE DOOR CLOSERS

- 24 Vdc or 230 Vac supply voltage
- Spring loaded pin ensures zero residual force
- Robust enclosure
- Includes keeper plate and instructions
- Approved to EN1155
- CE marked under the Construction Products Regulation

CODE	DESCRIPTION
129-1034	Conquest fire door holder 24Vdc
129-1035	Description: Conquest fire door holder 230Vdc

DOOR RELEASE DEVICES

STAINLESS STEEL FLUSH PUSH TO EXIT

- Single gang exit swith
- Vandal resistant
- Supplied flush mounted.
  Purchase SF-AEBBox to surface mount

CODE	PART NO	DESCRIPTION
129-1032	SF-AEB2	Stainless Steel Push to Exit
129-1033	SF-AEBBox	Stainless steel box for AEB2

VIBRATING PILLOW ALARM

- 'Listen and learn' digital technology that listens for the unique sound of specific fire alarm.
- If alarm sounds the pillo pad vibrated. It caters fo the safety of the deaf an hard of hearing
- No installation
- Portable device
- Battery powered uses AA batteries
- Visual warning of low battery
- Compliant with elements of the Equality Act 2019
- Flashing white LED visual warning
- Time display with alarm clock function

CODE	PART NO	DESCRIPTION
129-1013	AVP1	Agrippa Vibrating Pillow Alarm

ELECTROMAGNETIC 24V HYDRAULIC DOOR CLOSER

- Quality UK made product
- One unit offers hold open or swing free
- May be mounted push or pull side
- Adjustable closing and latching speed as standard
- Available in a variety of finishes and power sizes - please ask for details

CODE	PART NO	DESCRIPTION
112-1083	EDC4870	Electromagnetic 24v Hold Open/Swing Free Door Closer-Silver Finish

STAINLESS STEEL KEYPAD

- Vandal resistant
- Two fully changeable codes may be used
- Includes latch time facility

CODE	PART NO	DESCRIPTION
129-1031	K42	Stainless steel keypad

BATTERY OPERATED ALARMS

9V BATTERY SMOKE ALARM

- Test button verifies battery and alarm operation
- Low battery indicator
- 3 year warranty
- Fully certified to EN14604
- Supplied complete with battery
- Dimensions: Ø105mm x D40mm

CODE	PART NO	DESCRIPTION
117-1000	BSD1	Micro Smoke Detector

10 YEAR SEALED-IN BATTERY SMOKE ALARM

- Lithium battery powered
- Maintenance free - 10 year life
- Test/reset button
- Red LED indicator – flashes to display normal operation
- Supplied with bracket

CODE	PART NO	DESCRIPTION
117-1005	BSD6	10 Year Guarantee Lithium Smoke Detector - Optical

SMOKE ALARM WITH LIGHT

- Premium 9v battery ionisation smoke detector
- Safety light illuminates when alarm sounds to guide your exit
- Test button verifies battery and alarm operation
- Hush button to silence nuisance alarms
- 5 year warranty
- Fully certified to EN14604
- Supplied complete with battery
- Dimensions: Ø190mm x D47mm

CODE	PART NO	DESCRIPTION
117-1006	BSD7	Smoke Detector with Light

RADIO LINKED BATTERY-OPERATED CARBON MONOXIDE ALARM

- RF wireless interconnect
- Proven electrochemical sensor (6 year life)
- Sealed-in lithium battery
- Test/hush button
- Kitemarked to BSEN50291:2001
- 5 year guarantee

RADIO TECHNOLOGY

CODE	PART NO	DESCRIPTION
117-1030	EI208WRF	Radio CO Alarm c/w Lithium Battery Backup

CARBON MONOXIDE ALARM

- High quality, low cost carbon monoxide alarm
- 85db alarm alerts you if CO levels become dangerous
- Electrochemical technology CO detection sensor
- 5 year warranty
- BSI Kitemarked to EN50291
- Supplied complete with batteries
- Dimensions: Ø140mm x D35.5mm

CODE	PART NO	DESCRIPTION
117-1008	CMD1	Carbon Monoxide Detector

2-IN-1 CO/SMOKE ALARM

- Combined smoke and carbon monoxide alarm
- Voice warning system
- Advanced CO electrochemical technology
- Ionisation technology for smoke detection
- 5 year warranty
- 9V battery powered

CODE	PART NO	DESCRIPTION
117-1011	CMD2	Carbon Monoxide & Ionisation Smoke Detector

CAVIUS HEAT, SMOKE & FLOOD ALARMS

CAVIUS™

CAVIUS™ WIRELESS ALARM FAMILY

DANISH DESIGN

10 YEARS BATTERY

100% BATTERY

ENVIRONMENTALLY FRIENDLY

In 2010 Cavius introduced the world's smallest photoelectric smoke alarm. At just 40mm in diameter, the new alarm was unique because of the EN-approved micro-design and special features.

Today Cavius has a complete range of smoke, heat and flood alarms, which all communicate wirelessly. The range brings unrivalled system communication between wireless battery-operated alarms and mains powered alarms. All the alarms are certified according to the highest standards in Europe, US and Australia and all go through a 100% test schedule, as well as being tested by notified certification bodies and testing laboratories.

The unique Danish design combined with a professional UK-based R&D team means the most advanced alarms available on the market.

FLOOD ALARM
SMOKE ALARM

It is recommended to place at least one smoke alarm on every floor of the home - especially in hallways and bedrooms. Do not place a smoke alarm too close to a kitcen appliance or fireplace, as this may result in false alarm.

HEAT ALARM

Heat alarms are designed to avoid false alarms. It is used in areas where smoke can be accepted, such as kitchens, garages, fireplaces and workshops. This device is activated when it senses a rapid increase in room temperature.

FLOOD ALARM

Flood alarms are designed to detect a leak of water from washing machines, dish washing machines, broken pipes or humid areas. Can also detect flooding of basements etc. Place it on the floor in inaccessible places where leaks are difficult to discover.

NEW RANGE

CAVIUS 5 YEAR 40MM SMOKE ALARM

- The world's original smallest smoke alarm
- Designed for use in private homes, camping trailers, mobile homes and caravans. (Not recommended for boats)
- Battery type: Duracell 5 year 3V CR2 Lithium battery, 850mAh (replaceable).
- Low battery indication
- Audible indicator min. 85 dB @ 3 metres
- Red LED visible indicator
- Push button 'Hush' and 'Test'
- EN 14604:2005
- EN 60065
- CE 0333

SITEWARDEN SITE SYSTEMS

NEW PRODUCT RANGE

FIRECHIEF SITEWARDEN RF CALL POINT SITE ALARM

- Compact design for internal and external applications
- Switchable RF Range - standard 200m up to 600m in long range mode
- Supplied with batteries ready to go
- Easily linked to other Sitewarden RF Range units - maximum 10 units
- Battery test function
- Alarm test mode
- Integral strobe for noisy environments
- Dimensions: H240mm x W125mm x D65mm
- 90dB at 2 metre range

CODE	MODEL
116-1143	SP400RF

FIRECHIEF SITEWARDEN RF EXPANSION MODULE

- For use with Firechief Sitewarden RF units
- External power input 12v (9-28Vdc)
- Electric Relay (30Vdc, 1A)
- IP42 rated
- Offers 200m extension of RF Network

CODE	MODEL
116-1146	SM400RF

FIRECHIEF SITEWARDEN RF SOUNDER/BEACON UNIT

- For use with Firechief Sitewarden RF units
- 100m range from RF units
- Integral Strobe of noisy environments
- 90dB at 2m range
- IP40

CODE	MODEL
116-1147	SS400RF

FIRECHIEF SITEWARDEN RF CALL POINT

- 470ohm and 940ohm resistors fitted for use in conventional systems
- Replacement part for P300 and P300W systems
- Flush resettable call point
- EN 54 compliant
- Activation clearly visible across the 'Glass'

CODE	MODEL
116-1144	SC400RF

FIRECHIEF SITEWARDEN RF DETECTOR

- Battery operated smoke detector
- Features integral sounder
- Wireless connectivity to other Sitewarden system units
- Will operate as standalone unit
- 85dB at 3 metre range

CODE	MODEL
116-1145	SD400RF

HOWLER SITE ALARMS

HOWLER PUSH ON/PUSH OFF ALARM

- Simple push on/push off switch for easy operation
- Suitable for outside locations with IP65 rated switch
- 22mm diameter switch makes for quick emergency operation

CODE	MODEL
116-1046	HO1

HOWLER CALLPOINT ALARM

- Incorporates a resettable conventional callpoint
- Prevents unauthorised silencing of the alarm in an emergency situation
- Supplied with two resetting keys

CODE	MODEL

CODE	MODEL	DESCRIPTION
116-1142	SB100	Firechief Sitewarden Push Button Site Alarm

HOWLER GO LINK EVACUATION ALARM

HOWLER GO LINK WITH FIRST AID ASSISTANCE ALARM

Creating a radio linked fire warning system which is simple to install, use and maintain is not a simple task. But that is what Howler UK have done with the Howler GoLink evacuation alarm. They've focussed on what both installers and end-users need, and have crafted it in the true Howler tradition: reliable, simple and tough! Get going - get GoLink...

- Outputs on panel for interfacing with other systems
- Functional control panel - very simple to set up and use
- 8 different channels for multiple building projects
- Hot keys for quicker activation, testing and resetting
- Off-the-shelf Alkaline batteries for low on-going maintenance costs
- Very quick to install - saves time, saves money
- Continuous fault monitoring - know your alarms are connecting
- Wirelessly link 127 units - no trailing wires
- Optional mains power adaptor for control panel
- Class1 radio receiver - reliable connectivity

In the event of an accident on site, the speed of response can make all the difference. The effectiveness of the medical attention given, survival or non-survival, rapid recovery or slow recovery can all be greatly affected by this. The Howler GoLink Alarm with First Aid Assistance is the simple yet extremely effective solution.

The First Aid assistance option consists of a green switch, which on activation sends a radio signal to the control panel providing an 'Assistance Needed' message on the display along with the number of the unit that has been activated. First aiders can be quickly directed to the casualty, and if required, the whole site can be put on alert.

- Pinpoint from the control panel exactly where first aid assistance is required
- Separate activation switches, first aid symbols and specific message on panel means there is no confusion with the site evacuation alarm
- Choice of options on First Aid Assist settings, including the option to activate all flashing beacons on site
- Will trigger an autodialler linked to the control panel

HOWLER GO LINK SITE ALARMS

HO1GL/HO1GLXS

- Simple to use push on/off switch
- IP65 rated switch – suitable for indoor and outdoor use

CODE	MODEL	DESCRIPTION
116-1121	HO1GL	Howler HO1 GoLink push on/push off switch

RED FLASHING BEACON OPTIONS – SAFER ALL ROUND!

If people are working in noisy areas,
or wearing ear protection, a visual warning in the event of fire is essential.
The high-intensity Red Flashing Beacon option can be specified with any Howler model and offers a vital attention-grabbing addition to the audible warning of the siren.

MAXIMUM VISIBILITY

Mounted on top of the Howler,
the eye catching flashing strobe-style beacon can be seen through 360˚.

VISUAL WARNING

Reinforcing the message in a noisy area with a powerful visual signal.

RED

Red is the Signs & Signals Regulations colour for fire equipment and will not be confused with other warning beacons.

FIRECHIEF EMERGENCY TWINSPOT

- Ruggedly constructed emergency light fitting which uses 2 x 7.5W LED lamps
- Batteries are 12v, maintenance free sealed lead acid type
- Features non-maintained control gear
- Has LED indicators to show the lamp status.
- IP65 rated
- Three hour duration
- Ideal for warehouse applications

CODE	MODEL	DESCRIPTION
139-0005	FET06	Firechief 2x3W LED Emergency IP20 Twinspot
139-0006	FET15	Firechief 2x7.5W LED Emergency IP65 Twinspot

FIRECHIEF EMERGENCY EXIT HANGING SIGN

- Stylish integral emergency sign
- Uses 4W long life LEDs to ensure maximum durability
- Surface or suspended mounted
- Energy efficient LED
- Attractive slim design
- Can be viewed from both sides

CODE	MODEL	DESCRIPTION

ABC POWDER REFILL PACKS

CODE	MODEL	DESCRIPTION
119-1014	ABC6	2 x 6kg Powder Packs
119-1015	ABC9	2 x 9kg Powder Packs
119-1010	ABC25	25kg Powder Refill Pack - Firechief XTR approved

MONNEX POWDER

CODE	MODEL	DESCRIPTION
119-1437	PRM25	25kg Monnex Powder Pack

AFFF FOAM REFILLS

CODE	MODEL	DESCRIPTION
119-1609	FR6	90ml Firechief XTR approved Foam Refill for 6L extinguisher
119-1610	FR9	180ml Firechief XTR approved Foam Refill for 9L extinguisher
119-1030	AFFF6/20	20L drum of 6% foam concentrate

FIRECHIEF ECOSPRAY WATER ADDITIVE REFILLS

CODE	MODEL	DESCRIPTION
119-1611	ESR3	501ml Firechief XTR Water Additive Refill for 3l Extinguisher
119-1612	ESR6	1002ml Firechief XTR Water Additive Refill for 6l Extinguisher

WET CHEMICAL REFILLS

CODE	MODEL	DESCRIPTION
119-1613	WCR3	1.5l Firechief XTR wet chemical refill for 3l extinguisher
119-1614	WCR6	3l Firechief XTR wet chemical refill for 6l extinguisher

FREEZE PROTECTION PACKS

- Will protect extinguishers down to temperatures of -9 degrees Celsius
- To be used in accordance with manufacturer's instructions

CODE	DESCRIPTION
119-1615	600ml Freeze Protection Pack for 6L Extinguisher
119-1616	900ml Freeze Protection Pack for 9L Extinguisher

DETECTOR TESTING

testifire MULTI-STIMULUS DETECTOR TESTER

SMOKE/HEAT DETECTOR TESTING UNIT

- For smoke & heat

CODE	MODEL	DESCRIPTION
123-1043	TES1000	Testifire/Smoke-Heat Head Unit

SMOKE/HEAT DETECTOR CO TESTING UNIT

- For smoke, heat & CO

CODE	MODEL	DESCRIPTION
123-1050	TES2000	Testifire Smoke/Heat/CO Head Unit

SMOKE/HEAT DETECTOR/CO TESTING KIT

Allows fast and efficient testing of smoke and heat detectors. Tests can be carried out as single, simultaneous or sequential tests depending on detector being tested

Product features include:

- Two heat settings
- Activation of the widest range of 100°C)
- Compatible with Solo access po
- Able to test for CO

CODE	MODEL	DESCRIPTION
123-1051	TES2001	Testifire Smoke/Heat/CO Kit

SMOKE/HEAT DETECTOR TESTING KIT

Product features include:

- Compatibility with widest range of detectors
- Smoke & heat generated on–demand (only when detector enters cup)
- Transparent test cup for clear view of detector
- Adjustable handle for use at angles
- Testifire 2001 available for CO testing

CODE	MODEL	DESCRIPTION
123-1044	TES1001	Testifire/Smoke-Heat Kit

TESTIFIRE REPLACEMENT C0 & SMOKE CAPSULES

Smoke and CO generated by Testifire is delivered via capsules. The use of capsules offers several benefits over traditional aerosol canisters including:

- Non-pressurised – easier to store and transport
- On-demand smoke/CO generation – less wastage, more tests
- Smoke/CO stimulus which is compatible with widest range of detectors

CODE	MODEL	DESCRIPTION
123-1012	COT1	Solo CO Detector Tester - 250ml
123-1054	TESCO3	Testifire Replacement CO capsule, 3 pack
123-1055	TESCO6	Testifire Replacement CO capsule, 6 pack
123-1048	TESCAP3	Testifire Replacement Smoke capsule, 3 pack
123-1049	TESCAP6	Testifire Replacement Smoke capsule, 6 pack

DETECTOR TESTING

SMOKE SABRE HAND HELD AEROSOL

- A simple hand-held smoke detector tester for testing smoke detectors quickly and cost effectively with a flick-of-the-wrist
- The design eliminates the risk of harmful residue – a big problem associated with hand-held smoke aerosols
- More tests per can
- Fast activation & clearing
- Silicone free testing
- Approved by leading detector manufacturers

CODE	MODEL	DESCRIPTION
123-1007	SS-01-001	Smoke Sabre 150m

SOLO C3 CARBON MONOXIDE DETECTOR TESTER

- Approved test source for carbon monoxide detectors
- Designed for use with Solo 330 Dispenser

CODE	MODEL	DESCRIPTION
123-1012	C3-001	Solo CO Detector Tester - 250ml

SOLO A10 HFC FREE SMOKE DETECTOR TESTER

- Deliver smoke particles to the detector under test replicating the conditions of smoke from a fire
- Detector manufacturer approved
- Designed for use with Solo 330 dispenser
- Compliant with regulations
- UL certified

CODE	MODEL	DESCRIPTION
123-1081	A10-001	Solo A10 HFC Free Smoke Detector Tester 150ml
123-1082	A10S-001	Solo A10 HFC Free Smoke Detector Tester 250ml

SOLO A5 SMOKE DETECTOR TESTER

- Delivers smoke particles to the detector under test replicating the conditions of smoke from a fire
- Detector manufacturer approved
- Designed for use with Solo 330 dispenser
- Compliant with regulation

CODE	MODEL	DESCRIPTION
123-1040	A5-001	Solo Smoke Detector Tester - 250ml

DETECTOR TESTING

SOLO 365 SMOKE DETECTOR TESTER

NEW

An innovative new tester for the functional testing of smoke detectors. Solo 365 delivers smoke via Solo ES3 smoke cartridges offering faster, simpler and cleaner testing.:

- 'Auto-start' – proximity sensor automatically initiates test
- Flexible head – easy testing of hard-to-access detectors
- LED Auto-torch for testing in dark areas
- Clearing mode – for eliminating re-alarms
- Fast detector activation
- Uses non-pressurised, non-hazardous smoke cartridges
- Optional ASD Adaptor allows for testing of ASD systems

CODE	MODEL	DESCRIPTION
123-1063	SOLO365	Solo 365 Smoke Detector Tester

SOLO ES3 SMOKE CARTRIDGE **NEW**

A compact smoke cartridge for use with Solo 365. The Solo ES3 cartridge is non-hazardous and non pressurised – allowing for easy storage and transportation.

- Detector manufacturer approved
- Non-flammable, non-pressurised & non-hazardous
- Rapid activation of detectors
- Compact design

CODE	MODEL	DESCRIPTION
123-1064	SOLOES3	Solo 365 Smoke Cartridge – pack of 12

SOLO 365 SMOKE DETECTOR TESTER KIT – 4M **NEW**

1 x Solo 365 Smoke Test Kit

1 x Solo ES3 Smoke Cartridge

1 x Solo 370 Lithium Ion Battery Pack

1 x Solo 371 Smoke Generator

1 x Universal USB charger & USB Lead

CODE	MODEL	DESCRIPTION
123-1068	SOLO908	Solo 365 Smoke Detector Tester Kit – 4m

SOLO 365 SMOKE DETECTOR TESTER KIT – 6M

123-1066	SOLO1060	Solo 365 Battery Charger
123-1067	SOLO371	Solo 365 Smoke Generator

SOLO URBAN KITS **NEW**

Convenient, Compact, Practical - perfect for the fire engineer on the go!

Designed with portability in mind, the new range of lightweight Urban fire detector test kits allow engineers to move easily around towns, large sites, or buildings without the need to carry bulky poles and bags.

Urban telescopic and extension poles are half the length of conventional poles. Engineers are able to test smoke, heat, CO, or multi-sensor detectors at heights up to 5 metres

URBAN SMOKE TEST KIT – 5M (SOLO 365)

1 x Urban Backpack (including Pole Bag)

1 x Urban 4-section Telescopic Pole 1.75m

3 x Urban Extension Pole 0.5m

1 x Solo 365 Smoke Test Kit

** Using Solo C3 CO Detector Tester Aerosol

SMOKE/MAINS HEAT DETECTOR TEST/REMOVAL KIT (SOLO 814)

- A universal set for testing and removing smoke and heat detectors up to 6m high.
- With mains heat tester.

Contents:
- 1 x Solo Pole NC100
- 1 x Solo Removal Tool NC200
- 1 x Solo Smoke Tester NC330
- 1 x Solo Heat Tester NC424
- 1 x Protective carrying and storage bag
- 1 x Solo Aerosol SDT2

CODE	MODEL
123-1015	SOLO814

SMOKE DETECTOR TEST STARTER P

- The Solo 810 kit is ideal for testing smoke detector
Contents:
- Solo 330 Aerosol Dispenser
- Solo 101 Extension Pole
- Provides access to detectors up to 2.5m

CODE	MODEL
123-1029	SOLO810

NEW PRODUCTS

SMOKE DETECTOR TESTING STARTER KIT (SOLO 808)

• A starter pack for testing smoke detectors up to 4m high

Contents:
- 1 x Solo Pole NC108
- 1 x Solo Smoke Tester NC330
- 1 x Solo Aerosol SDT2

CODE	MODEL
123-1014	SOLO808

SOLO SPARES & ACCESSORIES

CODE	MODEL	DESCRIPTION
123-1070	SOLO727	Solo Tester Battery Charger
123-1071	SOLO726	Solo Tester Battery Charger
123-1072	SOLO770	Solo Tester Battery

SMOKE/CORDLESS HEAT DETECTOR TEST/REMOVAL KIT (SOLO 822)

• A universal set for testing and removing smoke and heat detectors up to 6m high.

• With cordless heat tester.

Contents:
- 1 x Solo Pole NC100
- 1 x Solo Removal Tool NC200
- 1 x Solo Smoke Tester NC330
- 1 x Solo Heat Tester NC461
- 1 x Protective carrying and storage bag
- 1 x Solo Aerosol SDT2

CODE	MODEL
123-1016	SOLO822

139

DETECTOR TESTING

SMOKE DETECTOR TESTING HEAD SOLO 330

- Suits widest range of detectors (up to 100mm / 4" in diameter)
- Dispenser conserves smoke for fast activation & low cost per test
- Spring-loaded solution for suspended ceilings
- Transparent test cup for clear view of detector LED
- Swing frame for use at angles
- Can also be used with Solo C3 Carbon Monoxide Aerosol

CODE	MODEL	DESCRIPTION
123-1017	SOLO330	Smoke Detector Testing Unit

MAINS HEAT DETECTOR TESTER HEAD 220/240V SOLO 424

- Suits fixed temperature, rate-of-rise and combination detectors up to 194°F / 90°C
- Lightweight and simple to use
- Universal design suits widest range of detectors
- Designed for use at height, at angles and low level
- Supplied with 5m / 16ft cable

CODE	MODEL	DESCRIPTION
123-1020	SOLO424	Mains powered Heat Detector Tester
123-1040	SDT5	Economy Smoke Detector Tester 250ml

SOLO ACCESS POLES

- Pull-wound glass fibre construction
- Designed certified non-conductive
- One, two and four section versions available
- Maximum reach of 9 metres
- Optimum strength-to-weight ratio
- Simple locking mechanism
- Lifetime warranty

CODE	MODEL	DESCRIPTION
123-1021	SOLO100	Solo Extension Pole - 4.5m
123-1022	SOLO101	Solo Extension Pole - 1.3m
123-1025	SOLO108	Solo Extension Pole - 2.2m
123-1026	SOLO200	Solo Detector Removal Tool
123-1027	SOLO602	Pole Bag
123-1078	SOLO612	Urban Pole Bag

CORDLESS HEAT DETECTOR TESTING HEAD SOLO 461

- Endorsed by leading detector manufacturers
- No cables, trailing leads or hanging wires
- Battery powered
- Suits fixed temperature, rate-of-rise and combination detectors up to 194°F / 90°C
- Universal design suits widest range of detectors
- Transparent test cup for clear view of detector LED
- Designed for use at height, angles or low level

CODE	MODEL	DESCRIPTION
123-1018	SOLO461	Cordless Heat Detector Testing Head
123-1019	SOLO760	Battery Baton for Heat Detector Kit

NITROGEN REGULATOR & HOSE ASSEMBLY

FIRE TRAINING TRAY

- Designed for use with Adaptor Kit ADK1
- Supplied complete with 1/4" female quick-fit connector on hose for ultimate ease of use
- Top quality solid brass valve assembly
- 1m Hose rated at 20bar (300psi) working pressure

CODE	MODEL	DESCRIPTION
122-1100	NRH1	Nitrogen regulator

- LPG operation for clean and controllable fires
- Supplied complete with valve assembly and hose
- Includes gas fuelled lighting wand for easy and safe re-ignition
- Overall dimensions: H200mm x W900mm x D900mm

CODE	MODEL	DESCRIPTION
121-1016	FTT2	Fire training tray
121-1013	FTL1	Fire training tray lance
121-1014	FTLC	Gas Cartridge for Lance FTL1

ADAPTOR KIT

- 11-Piece adaptor kit securely packed in a handy robust storage case
- Most makes of extinguisher covered by kit including; Firechief, Pyrene, Firepower, Optimax, Allied, Amerex, Roberts, Firemark, Kidde Thorn
- All adaptors supplied fitted with male quick-fit connector – compatible with Regulator NRH1

Contents:
- ⅜" Roberts adaptor
- Kidde Thorn adaptor
- Amerex adaptor (Small)
- Amerex adaptor (Large)
- ⅛" Male adaptor
- 14mm FPS/Firemark adaptor
- ¼" Firechief/Firepower/

Optimax/ Pyrene/Allied adaptor
- ¼" Taper adaptor (Roberts)
- Schrader adaptor
- Schrader valve
- Schrader valve cleaning tool.

CODE	MODEL	DESCRIPTION
122-1027	ADK1	Adaptor kit

141

WEIGHING SCALES

DIGITAL WEIGHING SCALE

- Battery powered electronic portable scale
- Kg/lb unit switching
- Auto shut-off to maximise battery life
- Capacity: 45kg x 0.1kg
- Display: Blue LCD backlight 4 x 25mm high digits
- Dimensions: 278mm x 318mm x 56mm

CODE	MODEL	DESCRIPTION
122-1054	DWS2	45kg weighing scale

ALUMINIUM LED POCKET TORCH

- Aluminium pocket torch
- Super bright LED
- Battery not included
- 1 x AA battery required

CODE	MODEL	DESCRIPTION
114-1012	APT1/S	Aluminium LED Pocket Torch - 2AA - Single

HANDHELD DIGITAL SCALE

- Easy to operate, battery powered scale
- Angled display for easy viewing
- Tough ABS plastic case
- Supplied with carrying pouch and battery

CODE	MODEL	DESCRIPTION
122-1041	DBW1	25kg
122-1042	DBW2	45kg

SPRING BALANCE

- Available in four different calibrations
- Moulded ABS plastic body
- Full overload protection

CODE	MODEL	DESCRIPTION
122-1119	SBW1	1kg
122-1120	SBW2	2kg
122-1121	SBW3	10kg
122-1122	SBW4	20kg

V CLAMP

- Powder Coated Finish
- Re-positional rubber grips
- Suitable for all extinguisher sizes

CODE	MODEL
122-1066	EVC1

PUMP GAUGE TESTER

- Top quality precision engineered gauge pump

CODE	MODEL
122-1107	PGT1

RUBBER MALLET

- Sturdy wooden handle
- Heavy-duty rubber head

CODE	MODEL	DESCRIPTION
122-1134	SRM1	Rubber Mallet

HEADCAP/VALVE REMOVAL BAR FOR XTR

- Extinguisher headcap/valve removal bar designed for use with most stored pressure extinguishers
- Not to used in conjunction with hammers, mallets etc

CODE	MODEL	DESCRIPTION
122-1082	HRB2	Headcap/Valve Removal Bar for XTR

ADJUSTABLE WRENCH

- Jaws of spanner can be altered to fit various sizes of bolts and nut heads
- Manufactured from forged, hardened and tempered chrome vanadium steel

CODE	MODEL	DESCRIPTION
122-1070	FAW2	250mm

WATER PUMP PLIERS

- Adjustable pliers for gripping pipes, nuts and bolts
- Sliding pivot allows wide range of jaw opening adjustments

CODE	MODEL	DESCRIPTION
122-1151	WPP1	150mm

STERILISING TABLETS

BEST SELLER

- Effective against bacteria, fungi, viruses and spores
- 250 x 0.5g NaDCC tablets per tub
- Only to be used in accordance with manufacturer's specifications

CODE	MODEL
122-1055	ECT1

EXTINGUISHER GAUGE TOOL KIT

- Traditional tools for testing extinguisher gauges

CODE	MODEL
122-1065	EGT1

SILICONE SIGN ADHESIVE

- Very good adhesion on many materials
- Ideal for rigid PVC sign installation
- Very easy application

CODE	MODEL	DESCRIPTION
124-1017	ABS1	350ml cartridge

PETROLEUM JELLY

- White Petroleum Jelly
- Ideal for lubricating threads prior to assembly

CODE	MODEL	DESCRIPTION
122-1160	WPJ350	Petroleum Jelly - 350g
