Dear Customer

RE: NOTIFICATION OF LEGAL ENTITY AND NOVATION OF CONTRACT

As a valued customer, I would like to notify you of some important changes that will be taking place over the coming months in relation to how we brand ourselves as an organisation.

This letter informs you that from the 1st of November 2023, we will officially rebrand and hive up the legal entity of Merryweather & Sons Limited (03914176) into Morgan Fire Protection Limited (02002176), transferring all contracts of sale, purchase and employment and liabilities from the Merryweather legal entity into Morgan Fire.

As such, we are pleased to introduce to you our new brand:

Our obligations under your existing agreements remain unaffected by the integration and Morgan Fire Protection commit to ensuring all our existing contractual obligations continue to be met.

Why Morgan Fire Protection?

Morgan Fire Protection is one of 10 fellow brands comprising Marlowe Fire & Security Group, the Fire Life Safety & Security Division of Marlowe plc.

With over 30 years' experience serving customers across the UK, Morgan Fire Protection, established in 1986, has proven itself as a market-leading fire protection services provider of choice.

By uniting the capabilities and resources of Merryweather and Morgan Fire as a consolidated entity, our customers will benefit from a more extensive range of capabilities and services across the range of sectors in which we operate.

Our customers will also have access to a wider team of engineering resource, allowing us to provide an enhanced service resulting in improved customer care.

As a family run business, I want to assure all of our customers that we will continue to offer the personal service to which you are accustomed.

What is going to change and what will stay the same?

- Our people, including your day-to-day contacts, remain unaffected by the integration
- The same dedicated engineers will continue to provide the quality service we are known for
- Our insurance cover, certification, accreditation and leading industry memberships and commitment to health, safety and quality will continue unaffected
